- (1) On March 1, 2010, the Company issued 64,655 shares of its common stock to Terex Corporation, in lieu of \$150 of the principal payment on the Term Note that was due on March 1, 2010. This transaction is a non-cash transaction. Accordingly, the cash flow statement excludes the impact of this transaction.
- (2) On January 6, 2010, the Company issued 130,890 shares of common stock to settle a promissory note in the amount of \$250 issued on December 31, 2009 in connection with the Load King acquisition. The note was executed to ensure the delivery to the Seller of 130,890 shares of the Company's Common Stock as provided for in the Purchase Agreement. This transaction is a non-cash transaction. Accordingly, the cash flow statement excludes the impact of this transaction.

The accompanying notes are an integral part of these financial statements.

MANITEX INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
(in thousands, except per share data)

Note 1. Nature of Operations

Manitex International, Inc. (the “Company”) is a leading provider of engineered lifting solutions. The Company operates in two business segments the Lifting Equipment segment and the Equipment Distribution segment.

Lifting Equipment Segment

The Company designs, manufactures and distributes a diverse group of products that serve different functions and are used in a variety of industries. Through its Manitex, Inc. subsidiary it markets a comprehensive line of boom trucks and sign cranes. Manitex’s boom trucks and crane products are primarily used for industrial projects, energy exploration and infrastructure development, including, roads, bridges and commercial construction. Its Badger Equipment Company subsidiary (“Badger”) acquired on July 10, 2009, is a manufacturer of specialized rough terrain cranes and material handling products, including a 30-ton model, the first in a new line of specialized high quality rough terrain cranes that we will be introducing. Badger primarily serves the needs of the construction, municipality, and railroad industries.

The Manitex Liftking ULC (“Manitex Liftking” or “Liftking”) subsidiary sells a complete line of rough terrain forklifts, including the Liftking and Noble product lines, a line of electric forklifts marketed under the Schaeff name, as well as special mission oriented vehicles, and other specialized carriers, heavy material handling transporters and steel mill equipment. Manitex Liftking’s rough terrain forklifts are used in both commercial and military applications. Specialty mission oriented vehicles and specialized carriers are designed and built to meet the Company’s unique customer needs and requirements. The Company’s specialized lifting equipment has met the particular needs of customers in various industries that include utility, ship building and steel mill industries.

On December 31, 2009, the Company’s subsidiary, Manitex Load King, Inc. (“Load King”), acquired the operating assets of Load King Trailers, an Elk Point, South Dakota-based manufacturer of specialized custom trailers and hauling systems, typically used for transporting heavy equipment. Load King trailers serve niche markets in the commercial construction, railroad, military, and equipment rental industries through a dealer network. Load King complements the Company’s existing material handling business.

July 1, 2010, the Company’s Italian subsidiary, CVS Ferrari, srl (“CVS”) entered into an agreement to rent certain assets of CVS SpA on an exclusive rental basis, during the Italian bankruptcy process (concordato preventivo). CVS SpA was located near Milan, Italy and designed and manufactured a range of reach stackers and associated lifting equipment for the global container handling market, which were sold through a broad dealer network. During the third quarter 2010, CVS Ferrari, srl commenced operations and uses the rental assets in its operations. On June 29, 2011, the Company entered into an agreement which is effective on July 1, 2011 with CVS SpA in Liquidation to acquire the assets currently being rented. See Note 19 for further information.

Equipment Distribution Segment

The Company’s Crane & Machinery Division located in Bridgeview, Illinois, is a crane dealer that distributes Terex rough terrain and truck cranes, Fuchs material handlers, Manitex boom trucks and sky cranes. The Company’s Crane & Machinery Division provides service in its local market and also supplies repair parts for a wide variety of medium to heavy duty construction equipment sold both domestically and internationally. Our crane products are used primarily for infrastructure development and commercial constructions. Applications include road and bridge construction, general contracting, roofing, scrap handling and sign construction and maintenance.

The Company believes that in the current environment, an option to purchase previously-owned equipment is a cost effective alternative that could increase customers return on investment. In the second quarter of 2010, the Company created a new division, North American Equipment Exchange, (“NAEE”) to market previously-owned equipment.

2. Basis of Presentation

The accompanying consolidated financial statements, included herein, have been prepared by the Company without audit pursuant to the rules and regulations of the United States Securities and Exchange Commission. Pursuant to these rules and regulations, certain information and footnote disclosures normally included in financial statements which are prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments (consisting only of normal recurring accruals, except as otherwise disclosed) necessary for a fair presentation of the Company’s financial position as of June 30, 2011, and results of its operations and cash flows for the periods presented. The consolidated balances as of December 31, 2010 were derived from audited financial statements but do not include all disclosures required by generally accepted accounting principles. The accompanying consolidated financial statements have been prepared in accordance with accounting standards for interim financial statements and should be read in conjunction with the Company’s audited consolidated financial statements and the notes thereto for the year ended December 31, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations for the interim periods are not necessarily indicative of the results of operations expected for the year.

Allowance for Doubtful Accounts

Accounts Receivable is reduced by an allowance for amounts that may become uncollectible in the future. The Company's estimate for the allowance for doubtful accounts related to trade receivables includes evaluation of specific accounts where the Company has information that the customer may have an inability to meet its financial obligations.

Inventory Valuation

Inventory consists of stock materials and equipment stated at the lower of cost (first in, first out) or market. All equipment classified as inventory is available for sale. The Company records excess and obsolete inventory reserves. The estimated reserve is based upon specific identification of excess or obsolete inventories. Selling, general and administrative expenses are expensed as incurred and are not capitalized as a component of inventory.

Accrued Warranties

The Company establishes a reserve for future warranty expense at the point when revenue is recognized by the Company. The provision for estimated warranty claims, which is included in cost of sales, is based on a percentage of sales.

Litigation Claims

In determining whether liabilities should be recorded for pending litigation claims, the Company must assess the allegations and the likelihood that it will successfully defend itself. When the Company believes it is probable that it will not prevail in a particular matter, it will then make an estimate of the amount of liability based, in part, on the advice of outside legal counsel.

Comprehensive Income

Reporting "Comprehensive Income" requires reporting and displaying comprehensive income and its components. Comprehensive income includes, in addition to net earnings, other items that are reported as direct adjustments to stockholder's equity. Currently, the comprehensive income adjustment required for the Company has two components. First is a foreign currency translation adjustment, the result of consolidating its foreign subsidiaries. The second component is a derivative instrument fair market value adjustment (net of income taxes) related to forward currency contracts designated as a cash flow hedge. See Note 4 for additional details. Comprehensive income is as follows:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2011	2010	2011	2010
Net income:	\$ 1,029	\$ 213	\$1,471	\$ 520
Other comprehensive income (loss)				
Foreign currency translation adjustments	63	(302)	309	(207)
Derivative instrument fair market value adjustment—net of income taxes	(15)	(162)	(27)	(142)
Total other comprehensive income (loss)	48	(464)	282	(349)
Comprehensive income (loss)	\$ 1,077	\$ (251)	\$1,753	\$ 171

3. Financial Instruments—Forward Currency Exchange Contracts

The following tables set forth the company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2011 and December 31, 2010 by level within the fair value hierarchy. As required by ASC 820-10, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is summary of items that the Company measures at fair value:

	Fair Value at June 30, 2011			
	Level 1	Level 2	Level 3	Total
Asset				
Forward currency exchange contracts	\$ 76	\$ —	\$ —	\$ 76
Total current assets at fair value	\$ 76	\$ —	\$ —	\$ 76
Liabilities:				
Forward currency exchange contracts	\$ 6	\$ —	\$ —	\$ 6
Load King contingent consideration	—	—	30	30
Total long-term liabilities at fair value	\$ 6	\$ —	\$ 30	\$ 36

	Fair Value at December 31, 2010			
	Level 1	Level 2	Level 3	Total
Asset				
Forward currency exchange contracts	\$ 160	\$ —	\$ —	\$ 160
Total current assets at fair value	\$ 160	\$ —	\$ —	\$ 160
Liabilities:				
Load King contingent consideration	\$ —	\$ —	\$ 30	\$ 30
Total long-term liabilities at fair value	\$ —	\$ —	\$ 30	\$ 30

Fair Value Measurements

ASC 820-10 classifies the inputs used to measure fair value into the following hierarchy:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 - Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The fair value of the forward currency contracts are determined on the last day of each reporting period using quoted prices in active markets, which are supplied to the Company by the foreign currency trading operation of its bank. Under ASC 820-10, items valued based on quoted prices in active markets are Level 1 items.

The Load King purchase agreement has a contingent consideration provision which provides for a one-time payment of \$750 if net revenues are equal to or greater than \$30,000 in 2010, 2011 or 2012. Given the disparity between the revenue threshold and the Company's projected financial results, it was determined that a Monte Carlo simulation analysis was appropriate to determine the fair value of contingent consideration. It was determined that the probability weighted average earn out payment is \$30. Based thereon, we determined the fair value of the contingent consideration to be \$30.

4. Derivatives Financial Instruments

The Company's risk management objective is to use the most efficient and effective methods available to us to minimize, eliminate, reduce or transfer the risks which are associated with fluctuation of exchange rates between the Canadian and U.S. dollar. When the Company's Canadian subsidiary receives a significant new U.S. dollar order, management will evaluate different options that may be available to mitigate future currency exchange risks. The decision to hedge future sales is not automatic and is decided case by case. The Company will only use hedge instruments to hedge firm existing sales orders and not estimated exposure, when management determines that exchange risks exceeds desired risk tolerance levels.

The Company enters into forward currency exchange contracts in order to attempt to create a relationship such that the exchange gains and losses on the assets and liabilities denominated in other than the reporting units' functional currency would be offset by the changes in the market value of the forward currency exchange contracts it holds. The forward currency exchange contracts that the Company has to offset existing assets and liabilities denominated in other than the reporting units' functional currency have been determined not to be considered a hedge under ASC 815-10. The Company records at the balance sheet date the forward currency exchange contracts at its market value with any associated gain or loss being recorded in current earnings. Both realized and unrealized gains and losses related to forward currency contracts are included in current earnings and are reflected in the Statement of Operations in the other income expense section on the line titled foreign currency transaction gains/(losses). Items denominated in other than a reporting unit's functional currency includes U.S. denominated accounts receivable and accounts payable held by our Canadian subsidiary.

The Company entered into forward currency contracts to hedge certain future U.S. dollar sales of its Canadian Subsidiary. The decision to hedge future sales is not automatic and is decided on a case by case basis. The forward currency contracts to hedge future sales are designated as cash flow hedges under ASC 815-10.

As required, forward currency contracts are recognized as an asset or liability at fair value on the Company's Consolidated Balance Sheet. For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings (date of sale). Gains or losses on cash flow hedges when recognized into income are included in net revenues. Gains and losses on the derivative instruments representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. The Company expects minimal ineffectiveness as the Company has hedged only firm sales orders and has not hedged estimated exposures. In the next twelve months, the company estimates \$16 of pre-tax unrealized gains related to forward currency contract hedges to be reclassified from other comprehensive income into earnings.

At June 30, 2011, the Company had entered into a series of forward currency exchange contracts. The contracts obligate the Company to purchase approximately CDN \$2,970 in total. The contracts which are in various amounts mature between July 6, 2011 and September 23, 2011. Under the contracts, the Company will purchase Canadian dollars at exchange rates between .9680 and 1.0489 The Canadian to U.S. dollar exchange rates was 1.0368 at June 30, 2011.

The unrealized currency exchange asset is reported under prepaid expense and other if it is an asset or under accrued expenses if it is a liability on the balance sheet at June 30, 2011. As of June 30, 2011, the Company had the following forward currency contracts:

<u>Nature of Derivative</u>	<u>Amount</u>	<u>Type</u>
Forward currency contract	CDN\$ 1,728	Not designated as hedge instrument
Forward currency contract	CDN\$ 1,242	Cash flow hedge

The following table provides the location and fair value amounts of derivative instruments that are reported in the Consolidated Balance Sheet as of June 30, 2011 and December 31, 2010:

Total derivatives NOT designated as a hedge instrument

<u>Asset Derivatives</u>	<u>Balance Sheet Location</u>	<u>Fair Value</u>	
		<u>June 30, 2011</u>	<u>December 31, 2010</u>
Foreign currency Exchange Contract	Prepaid expense and other	<u>\$ 55</u>	<u>\$ 101</u>

Total derivatives designated as a hedge instrument

	Balance Sheet Location	Fair Value	
		June 30, 2011	December 31, 2010
Asset Derivatives			
Foreign currency Exchange Contract	Prepaid expense and other	\$ 22	\$ 59
Liabilities Derivatives			
Foreign currency Exchange Contract	Accrued expense	\$ 6	\$ —

The following tables provide the effect of derivative instruments on the Consolidated Statement of Operations for the three and six months ended June 30, 2011 and 2010:

Derivatives Not designated as Hedge Instrument	Location of gain or (loss) recognized in Income Statement	Gain or (loss)			
		Three months ended June 30,		Six months ended June 30,	
		2011	2010	2011	2010
Forward currency contracts	Foreign currency transaction gains (losses)	\$ 4	\$ (289)	\$ 32	\$ (304)

Derivatives designated as Hedge Instrument	Location of gain or (loss) recognized in Income Statement	Gain or (loss)			
		Three months ended June 30,		Six months ended June 30,	
		2011	2010	2011	2010
Forward currency contracts	Net revenue	\$ 9	\$ (51)	\$ 100	\$ (17)

The Counterparty to currency exchange forward contracts is a major financial institution with credit ratings of investment grade or better and no collateral is required. Management continues to monitor counterparty risk and believes the risk of incurring losses on derivative contracts related to credit risk is unlikely.

5. Net Earnings per Common Share

Basic net earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution of warrants, and restricted stock units. Details of the calculations are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
Net Income per common share				
Basic	\$ 1,029	\$ 213	\$ 1,471	\$ 520
Diluted	\$ 1,029	\$ 213	\$ 1,471	\$ 520
Earnings per share				
Basic	\$ 0.09	\$ 0.02	\$ 0.13	\$ 0.05
Diluted	\$ 0.09	\$ 0.02	\$ 0.13	\$ 0.05
Weighted average common share outstanding				
Basic	<u>11,409,533</u>	<u>11,371,956</u>	<u>11,406,177</u>	<u>11,344,541</u>
Diluted				
Basic	11,409,533	11,371,956	11,406,177	11,344,541
Dilutive effect of warrants	189,830	—	183,692	—
Dilutive effect of restricted stock units	1,817	20,803	1,559	21,100
	<u>11,601,180</u>	<u>11,392,759</u>	<u>11,591,428</u>	<u>11,365,641</u>

At June 30, 2011, there are 105,000 warrants which are anti-dilutive and therefore not included in the average number of diluted shares outstanding shown above.

6. Equity

Stock Warrants

The Company accounts for warrants issued to non-employees based on the fair value on date of issuance. Certain warrants will be exercisable on a cashless basis under certain circumstances, and are callable by the Company on a cashless basis under certain circumstances. At June 30, 2011, the Company had issued and outstanding warrants as follows:

Number of Warrants	Exercise Price	Expiration Date	
450,000	\$ 4.05	November 15, 2011	Private placement
204,000	\$ 4.25	November 15, 2011	Private placement
192,500	\$ 4.62	November 15, 2011	Placement Agent Fee
105,000	\$ 7.18	September 11, 2012	Placement Agent Fee

During the six months ended June 30, 2011 no warrants were exercised. On June 15, 2011, 15,000 warrants with a value of \$45 expired without being exercised. Accordingly, the balance for warrants was reduced by \$45 and the balance in paid in capital was increased by \$45.

Stock Issuance

The Company issued shares of common stock to employees for restricted stock units issued under the Company's 2004 Incentive Plan, which had vested. The Company also repurchased shares from employees to satisfy employee withholding tax obligation. The shares were repurchased at the closing price on date the shares vested. The below table summarizes both stock issuance and repurchase with employees:

Issued Date	Shares Issued	Shares Repurchased	Share Net of Repurchases	Repurchase Price
January 1, 2011	10,000	3,065	6,935	\$ 3.85
March 15, 2011	6,617	—	6,617	—
March 31, 2011	1,360	—	1,360	—
	<u>17,977</u>	<u>3,065</u>	<u>14,912</u>	

2004 Equity Incentive Plan

In 2004, the Company adopted the 2004 Equity Incentive Plan and subsequently amended and restated the plan on September 13, 2007 and May 28, 2009. The maximum number of shares of common stock reserved for issuance under the plan is 500,000 shares. The total number of shares reserved for issuance however, can be adjusted to reflect certain corporate transactions or changes in the Company's capital structure. The Company's employees and members of the board of directors who are not our employees or employees of our affiliates are eligible to participate in the plan. The plan is administered by a committee of the board comprised of members who are outside directors. The plan provides that the committee has the authority to, among other things, select plan participants, determine the type and amount of awards, determine award terms, fix all other conditions of any awards, interpret the plan and any plan awards. Under the plan, the committee can grant stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares and performance units, except Directors may not be granted stock appreciation rights, performance shares and performance units. During any calendar year, participants are limited in the number of grants they may receive under the plan. In any year, an individual may not receive options for more than 15,000 shares, stock appreciation rights with respect to more than 20,000 shares, more than 20,000 shares of restricted stock and/or an award for more than 10,000 performance shares or restricted stock units or performance units. The plan requires that the exercise price for stock options and stock appreciation rights be not less than fair market value of the Company's common stock on date of grant.

The following table contains information regarding restricted stock units as of June 30, 2011:

	2011
Outstanding on January 1,	1,360
Units granted during the period	26,667
Vested and issued	(14,912)
Vested – repurchased for income tax withholding	(3,065)
Outstanding on June 30, 2011,	<u>10,050</u>

On January 1, 2011, the Company granted 10,000 restricted stock units to an employee pursuant to the Company's 2004 Equity Incentive Plan. The restricted stock units fully vested upon issuance.

On March 15, 2011, the Company granted an aggregate of 16,667 restricted stock units to four independent Directors pursuant to the Company's 2004 Equity Incentive Plan. Restricted stock units of 6,617, 4,950 and 5,100 vest on March 15, 2011, December 31, 2011 and December 31, 2012, respectively.

The value of the restricted stock is being charged to compensation expense over the vesting period. Compensation expense includes expense related to restricted stock units of \$8 and \$10 for the three months and \$87 and \$68 for the six months ended June 30, 2011 and 2010, respectively. Additional compensation expense related to restricted stock units will be \$17, and \$28 for the remainder of 2011, and 2012, respectively.

7. New Accounting Pronouncements

In October 2009, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update (ASU) 2009-13, "Multiple-Deliverable Revenue Arrangements", which amended ASC 605, "Revenue Recognition." This guidance addresses how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting, and how to allocate the consideration to each unit of accounting. In an arrangement with multiple deliverables, the delivered item(s) shall be considered a separate unit of accounting if the delivered items have value to the customer on a stand-alone basis. Items have value on a stand-alone basis if they are sold separately by any vendor or the customer could resell the delivered items on a stand-alone basis and if the arrangement includes a general right of return relative to the delivered items, delivery or performance of the undelivered items is considered probable and substantially in the control of the vendor.

Arrangement consideration shall be allocated at the inception of the arrangement to all deliverables based on their relative selling price, except under certain circumstances such as items recorded at fair value and items not contingent upon the delivery of additional items or meeting other specified performance conditions. The selling price for each deliverable shall be determined using vendor specific objective evidence ("VSOE") of selling price, if it exists, otherwise third-party evidence of selling price. If neither VSOE nor third-party evidence exists for a deliverable, the vendor shall use its best estimate of the selling price for that deliverable. This guidance eliminates the use of the residual value method for determining allocation of arrangement consideration and allows the use of an entity's best estimate to determine the selling price if VSOE and third-party evidence cannot be determined. It also requires additional disclosures such as the nature of the arrangement, certain provisions within the arrangement, significant factors used to determine selling prices and the timing of revenue recognition related to the arrangement. This guidance shall be effective for fiscal years beginning on or after June 15, 2010, with early adoption permitted. The guidance has been adopted as of January 1, 2011 and did not have a material impact on the Company's consolidated financial statements.

In January 2010, the FASB issued Accounting Standards Update 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. This ASU requires some new disclosures and clarifies some existing disclosure requirements about fair value measurement as set forth in Codification Subtopic 820-10. The FASB's objective is to improve these disclosures and, thus, increase the transparency in financial reporting. Specifically, ASU2010-06 amends Codification Subtopic 820-10 to now require:

- A reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers; and,
- In the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances and settlements.

In addition, ASU2010-06 clarifies the requirements of the following existing disclosures:

- For purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities; and,
- A reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements.

ASU2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early adoption is permitted. The provisions were adopted on January 1, 2010. The adoption did not have a material impact on the Company's Consolidated Financial Statements.

In March 2010, the FASB issued Accounting Standards Update 2010-11, *Derivatives and Hedging (Topic 815): Scope Exception Related to Embedded Credit Derivatives*. The amendments in this Update are effective for each reporting entity at the beginning of its first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at the beginning of each entity's first fiscal quarter beginning after issuance of this Update. The adoption did not have a material impact on the Company's Consolidated Financial Statements.

In April 2010, the FASB issued Accounting Standards Update 2010-13, *Compensation-Stock Compensation (topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades—a consensus of the FASB Emerging Issues Task Force*. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. Earlier application is permitted. The guidance has been adopted as of January 1, 2011 and did not have a material impact on the Company's consolidated financial statements.

In July 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ASU 2010-20, *"Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses."* ASU 2010-20 requires additional disclosures about the credit quality of financing receivables and the allowance for credit losses. The purpose of the additional disclosures is to enable users of financial statements to better understand the nature of credit risk inherent in an entity's portfolio of financing receivables and how that risk is analyzed. The new disclosures was required to be made in interim and annual periods ending on or after December 15, 2010. ASU 2011-01 temporarily delays the effective date of the disclosures to interim and annual periods ending after June 15, 2011. The adoption did not have a material impact on the Company's Consolidated Financial Statements.

In December 2010, the FASB issue ASU 2010-28, *Intangibles – Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts ("ASU 2010-28")*. ASU 2010-28 modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts and requires the company to perform Step 2 if it is more likely than not that a goodwill impairment may exist. ASU 2010-28 is effective for fiscal years and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. Under the guidance any impairment recorded upon adoption is recorded as a cumulative-effect adjustment to beginning retained earnings in the period of adoption. The guidance has been adopted as of January 1, 2011 and did not have a material impact on the Company's consolidated financial statements.

December 2010, the FASB issued ASU No. 2010-29, *Business Combinations (Topic 805) — Disclosure of Supplementary Pro Forma Information for Business Combinations ("ASU 2010-29")*. This standard update clarifies that, when presenting comparative financial statements, SEC registrants should disclose revenue and earnings of the combined entity as though the current period business combinations had occurred as of the beginning of the comparable prior annual reporting period only. The update also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. ASU 2010-29 is effective prospectively for material (either on an individual or aggregate basis) business combinations entered into in fiscal years beginning on or after December 15, 2010 with early adoption permitted. ASU 2010-29 is therefore effective for acquisitions made after January 1, 2010. The guidance has been adopted as of January 1, 2011 and may impact our disclosures for any future business combinations, but the effect will depend on acquisitions that may be made in the future.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this ASU generally represent clarification of Topic 820, but also include instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This update results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards ("IFRS"). The amendments are effective for interim and annual periods beginning after December 15, 2011 and are to be applied prospectively. Early application is not permitted. The Company is in the process of assessing the impact, if any, that the adoption of ASU 2011-04 will have on its results of operations or its financial position.

In June 2011, the FASB issued ASU 2011-05 - *Presentation of Comprehensive Income ("ASU 2011-05")*, requires entities to present reclassification adjustments included in other comprehensive income on the face of the financial statements and allows entities to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. It also eliminates the option for entities to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. For public companies, ASU 2011-05 is effective for fiscal years (and interim periods within those years) beginning after December 15, 2011, with earlier adoption permitted. The Company will adopt these standards on January 1, 2012. Because ASU 2011-05 impacts presentation only, it will not have a material effect on the Company's operating results or financial position. This update will, however, require the Company to change the presentation of its consolidated financial statements.

8. Inventory

The components of inventory are as follows:

	<u>June 30, 2011</u>	<u>December 31, 2010</u>
Raw materials and purchased parts,	\$29,292	\$ 22,928
Work in process	4,139	3,192
Finished goods	4,572	4,574
Inventory, net	<u>\$38,003</u>	<u>\$ 30,694</u>

9. Goodwill and Intangible Assets

	June 30, 2011	December 31, 2010	Useful lives
Patented and unpatented technology	\$12,323	\$ 12,163	10-17 years
Amortization	(5,508)	(4,895)	
Customer relationships	10,101	10,089	10-20 years
Amortization	(2,438)	(2,146)	
Trade names and trademarks	5,998	5,995	25 years
Amortization	(1,024)	(903)	
In process research and development	100	100	indefinite
Customer backlog	476	473	< 1 year
Amortization	(476)	(473)	
Intangible assets	19,552	20,403	
Goodwill	14,452	14,452	
Goodwill and other intangibles	<u>\$34,004</u>	<u>\$ 34,855</u>	

Amortization expense for intangible assets was \$509 and \$507 for the three months and \$1,018 and \$1,015 for the six months ended June 30, 2011 and 2010, respectively.

As of June 30, 2011 and December 31, 2010, goodwill for the Lifting Equipment segment and the Equipment Distribution segment was \$14,177 and \$275, respectively.

10. Accounts Payable and Accrued Expenses

	June 30, 2011	December 31, 2010
Trade	\$16,554	\$ 14,317
Bank overdraft	263	130
Total accounts payable	<u>\$16,817</u>	<u>\$ 14,447</u>
Accrued expenses:		
Accrued payroll	\$ 846	\$ 362
Accrued employee health	202	190
Accrued bonuses	222	756
Accrued vacation expense	442	387
Accrued interest	148	153
Accrued commissions	486	510
Accrued expenses—other	407	426
Accrued warranty	688	577
Accrued product liability	68	—
Accrued income taxes	213	643
Accrued liability on forward currency contracts	11	—
Accrued taxes other than income taxes	10	331
Total accrued expenses	<u>\$ 3,743</u>	<u>\$ 4,335</u>

11. Accrued Warranty

The liability is established using historical warranty claim experience. Historical warranty experience is, however, reviewed by management. The current provision may be adjusted to take into account unusual or non-recurring events in the past or anticipated changes in future warranty claims. Adjustments to the initial warranty accrual are recorded if actual claim experience indicates that adjustments are necessary. Warranty reserves are reviewed to ensure critical assumptions are updated for known events that may impact the potential warranty liability.

	Six Months Ended	
	June 30, 2011	June 30, 2010
Balance January 1,	\$ 577	\$ 550
Accrual for warranties issued during the period	779	884
Warranty services provided	(664)	(815)
Changes in estimate	(8)	(63)
Foreign currency translation	4	5
Balance June 30,	<u>\$ 688</u>	<u>\$ 561</u>

12. Revolving Term Credit Facilities and Debt

Revolving Credit Facility

At June 30, 2011, the Company had drawn \$17,687 under a revolving credit facility. The Company is eligible to borrow up to \$22,500 with interest at the prime rate (prime was 3.25% at June 30, 2011). Alternatively, the Company can elect to take LIBOR based advances for a one, two or three month period, in which case interest is then equal to the applicable LIBOR interest rate plus 3.15%. At the end of specified period, the Company can elect to rollover the LIBOR based advance to another one, two or three month LIBOR based advance or can elect to convert the advance to a prime rate borrowing. The maximum amount available is limited to the sum of 85% of eligible receivables, and the lesser of 50% of eligible inventory or \$14,000, plus \$1,500. At June 30, 2011, the maximum the Company could borrow based on available collateral was capped at \$19,130. The credit facility's original maturity date was January 2, 2005. The maturity date was subsequently extended and the note is now due on April 1, 2015. The indebtedness is collateralized by substantially all of the Company's assets. The facility contains customary limitations including, but not limited to, limitations on acquisitions, dividends, repurchase of the Company's stock and capital expenditures. The agreement also requires the Company to have a Debt Service Ratio, as defined in the agreement of 1.25 to 1.0 and Funded Debt to EBITDA Ratio, as defined in the agreement, of no greater than 5.25 to 1.0 through March 31, 2012, from June 30, 2012 through March 31, 2013 a ratio of no greater than 4.75 to 1.0 and on June 30, 2013 and thereafter a ratio of no greater than 4.25 to 1.0.

The agreement also provides that the bank is to receive an unused credit line fee in an amount equal to one-eighth percent per annum payable quarterly in arrears.

The agreement permits the Company to issue unsecured guarantees of indebtedness owed by CVS Ferrari, srl to foreign banks in respect to working capital financing, not to exceed the lesser of \$5,000 or the amount of such financing. Additionally the agreement allows the Company to make or allow to remain outstanding any investment (whether such investment shall be of the character of investment of shares of stock, evidence of indebtedness or other securities or otherwise) in, or any loans or advances to CVS or to any other wholly-owned foreign subsidiary in an amount not to exceed \$2,500.

The above summarizes the terms of the revolving credit facility as of June 30, 2011. The Company executed certain amendments to its revolving credit facility between June 27, 2011 and June 29, 2011 and paid an amendment fee of \$113. The amendments extended the maturity dates to April 1, 2015, increased the maximum borrowings to \$22,500 from \$20,500, modified advance formula, which increased the amount the Company can borrow, and decreases prime rate based interest rates by 1.5%. The amendment also added a provision which permits the Company to elect to take LIBOR based advances and added a new covenant which requires that the Company have a maximum Funded Debt to EBITDA Ratio at the end of a quarter.

Revolving Canadian Credit Facility

At June 30, 2011, the Company had drawn US \$4,923 under a revolving credit agreement with a bank. The Company is eligible to borrow up to CDN \$6,500 or US \$6,739. The maximum amount available is limited to the sum of (1) 85% of eligible receivables plus (2) the lesser of 35% of eligible work-in-process inventory or CDN \$500 plus (3) the lesser of 50% of eligible inventory less work-in-process inventory or CDN \$3,500. At June 30, 2011, the maximum the Company could borrow based on available collateral was CDN \$5,342 or US \$5,538. The indebtedness is collateralized by substantially all of Manitex Liftking ULC's assets. The Company can borrow in either U.S. or Canadian dollars. For the purposes of determining availability under the credit line, borrowings in U.S. dollars are converted to Canadian dollars based on the most favorable spot exchange rate determined by the bank to be available to it at the relevant time. Any borrowings under the facility in Canadian dollars bear interest at the Canadian prime rate (the Canadian prime was 3.0% at June 30, 2011) plus 0.5%. Any borrowings under the facility in U.S. dollars bear interest at the U.S. prime rate (prime was 3.25% at June 30, 2011). Alternatively, the Company can elect to take LIBOR based U.S. dollar advances for a one, two or three month period, in which case interest is then equal to the applicable LIBOR interest rate plus 3.15%. At the end of specified period, the Company can elect to rollover the LIBOR based advance to another one, two or three month LIBOR based advance or can elect to convert the advance to a prime rate borrowing. The credit facility has a maturity date of April 1, 2015.

The above summarizes the terms of the revolving Canadian credit facility as of June 30, 2011. The Company executed certain amendments to its revolving Canadian credit facility on June 29, 2011 and paid an amendment fee of \$32. The amendments extended the maturity dates to April 1, 2015, increased the maximum borrowings to CDN \$6,500 from CDN \$5,500, modified advance formula, which increased the amount the Company can borrow, and decreases Canadian prime rate and U.S. prime rate based interest rates by 1.5%. The amendment also added a provision which permits the Company to elect to take LIBOR based U.S. dollar advances.

Revolving Credit Facility—Equipment Line

At June 30, 2011, the Company had drawn \$500 under a revolving credit facility with a bank. The Company is eligible to borrow up to \$1,000, with interest at prime rate (prime was 3.25% at June 30, 2011). Alternatively, the Company can elect to take LIBOR based advances for a one, two or three month period, in which case interest is then equal to the applicable LIBOR interest rate plus 3.15%. At the end of specified period, the Company can elect to rollover the LIBOR based advance to another one, two or three month LIBOR based advance or can elect to convert the advance to a prime rate borrowing. The maximum amount available is limited to of 85% of eligible equipment. The maximum the Company could borrow on June 30, 2011 was \$500. The credit facility has a maturity date of April 1, 2015.

The above summarizes the terms of the revolving credit facility—equipment line as of June 30, 2011. The Company executed certain amendments to its revolving credit facility on June 29, 2011. The amendments extended the maturity dates to April 1, 2015, increased the maximum borrowings to \$1,000 from \$500, and decreases prime rate based interest rates by 1.5%. The amendment also added a provision which permits the Company to elect to take LIBOR based advances.

Installment Note

At June 30, 2011, the Company had borrowed \$1,850 under an installment note. Under the Note, the Company is obligated to make forty-eight monthly installment payments of \$39 plus accrued interest commencing on August 1, 2011. The Note, which matures on July 1, 2015, provides for interest of prime plus one percent (1.0%). The Note may be prepaid at anytime without penalty or premium. In the event of default (as defined in the Second Amended and Restated Credit Agreement dated April 11, 2007, as amended), Comerica at its option may declare any or all of the indebtedness under this Note due and payable. The Note also provides for interest of prime plus four percent (4.0%) in the event of a default. The "Note" is collateralized by substantially all the assets of the Company.

Note Payable—Bank

At June 30, 2011, the Company has a \$333 note payable to a bank. The note was due on September 10, 2006. The maturity date was subsequently extended and the note is now due on April 1, 2012. The note has an interest rate of prime plus 2.5% until maturity, whether by acceleration or otherwise, or until default, as defined in the agreement, and after that at a default rate of prime plus 5.5%. Commencing on July 1, 2008, the Company is also required to make monthly principal payments of \$50 on the first day of each month. The bank has been granted security interest in substantially all the assets of the Company's Manitek subsidiary.

Note Payable Issued to Acquire Badger Equipment Company

In connection with the Company's acquisition of Badger, the Company issued a note payable to the seller with a face amount of \$2,750. The Company is obligated to make annual principal payments of \$550, commencing on July 10, 2010 and on each year thereafter through July 10, 2014. The maturity date of the Term Note is July 10, 2014. Accrued interest under the promissory Note is payable quarterly. The unpaid principal balance of the Term Note bears interest at 6% per annum. The holder of the note has been granted a security interest in the common stock of Badger Equipment Company, a subsidiary of the Company.

The note was recorded at its fair value on date of issuance at \$2,440. The fair value of the promissory note was calculated to be equal to the present value of the future debt payments discounted at a market rate of return commensurate with similar debt instruments with

comparable levels of risk and marketability. A rate of interest of 11% was determined to be the appropriate rate following an assessment of the risk inherent in the debt issue and the market rate for debt of this nature using corporate credit ratings criteria adjusted for the lack of public markets for this note. The calculated fair value was \$2,440. The difference between face amount of the note and its fair value is being amortized over the life of the note (\$175 through June 30, 2011), and is being charged to interest expense. As of June 30, 2011, the note has a balance of \$2,065.

Note Payable—Terex

At June 30, 2011, the Company has a note payable to Terex Corporation for \$1,250. The note which had an original principal amount of \$2,000 was issued in connection with the purchase of substantially all of the domestic assets of Crane & Machinery, Inc. (“Crane”) and Schaeff Lift Truck, Inc., (“Schaeff”). During the purchase negotiations, the Company agreed to assist the sellers and GT Distribution LLC in restructuring certain debt owed to Terex Corporation (“Terex”). Accordingly, on October 6, 2008, the Company entered into a Restructuring Agreement with Terex and Crane pursuant to which the Company executed and delivered to Terex a promissory note in the amount of \$2,000 that has an annual interest rate of 6%. Terex has been granted a lien on and security interest in all of the assets of the Company’s Crane & Machinery Division.

The Company is required to make annual principal payments to Terex of \$250 commencing on March 1, 2009 and on each year thereafter through March 1, 2016. So long as the Company’s common stock is listed for trading on the NASDAQ or another national stock exchange, the Company may opt to pay up to \$150 of each annual principal payment in shares of the Company’s common stock having a market value of \$150. Accrued interest under the note is payable quarterly.

Note payable floorplan

At June 30, 2011, the Company has a \$1,414 note payable to a finance company. The funds were borrowed from the finance company under the terms of a floorplan financing agreement. On March 3, 2010, the lender informed the Company that over the subsequent three months that they would discontinue providing floor plan financing to construction equipment dealers. As such, the lender did not finance any additional equipment after June 3, 2010. The lender’s decision did not impact any loans that were outstanding at June 3, 2010 and such loans continue under the terms and conditions that were in effect on the date the loan was made.

Under the floorplan agreement, the Company was permitted to borrow up to \$2,000 for equipment financing. Borrowings are secured by all inventory financed by or leased from the lender and the proceeds there from. The terms and conditions of any loans, including interest rate, commencement date, and maturity date were determined by the lender upon its receipt of the Company’s request for an extension of credit. The rate, however, may be increased upon the lender giving five days written notice to the Company.

The current balance \$1,414 is comprised of borrowing of \$769, \$316 and \$329 borrowed on December 30, 2008, January 12, 2009 and June 3, 2010, respectively. The terms under which funds were borrowed are discussed in the following paragraphs.

On December 30, 2008, the company borrowed \$1,252 under the floorplan agreement with the loan bearing interest at a rate per annum equal to the prime rate of interest, as published in the Wall Street Journal, plus 6%. The Company repaid \$483 of amount borrowed. On January 12, 2009 the Company borrowed \$400 at a rate per annum equal to the prime rate of interest, as published in the Wall Street Journal, plus 5% and has repaid \$84. Since the initial borrowing, the lender has agreed to several interest rate reductions. At June 30, 2011, the interest rate on both borrowings was 6%.

For twelve months from the date of borrowing, the Company is only required to make interest payments, followed by 48 equal monthly payments of principal and interest. The loans may be repaid at anytime and are not subject any prepayment penalty. On November 5, 2009, the lender agreed verbally to extend the interest only payments periods from twelve months to nineteen months for the two above loans. The Company started making principal payments in connection with \$769 (\$1,252 less \$483 repayment) and \$316 (\$400 less \$84 repayment) in August 2010 and September 2010, respectively.

On June 3, 2010, the Company borrowed \$329 under the floorplan agreement with the loan bearing interest of 6%. For twelve months from the date of borrowing, the Company is only required to make interest payments, followed by 48 equal monthly payments of principal and interest. The Company will begin making principal payments in July 2011.

Note Payable Issued to Acquire Load King

In connection with the Load King acquisition, the Company has a note payable to Terex for \$2,750. Under the promissory note, dated December 31, 2009, the Company is obligated to make equal annual principal payments of \$458 on the last day of each year commencing on December 31, 2011 and ending on December 31, 2016 (the “Maturity Date”). Accrued interest under the promissory note will be payable quarterly in arrears on the last day of each calendar quarter, commencing on March 31, 2010, through and including the Maturity Date. The unpaid principal balance of the promissory note will bear interest at 6% per annum. Terex has a security interest in the machinery and equipment located in South Dakota and a mortgage on certain real property in South Dakota. The promissory note is subject to acceleration upon the occurrence of customary events of default, including the Company’s failure to pay when due any principal or interest, and such principal or interest remains unpaid for more than 30 days from its due date.

The promissory note was recorded at its fair value on date of issuance at \$2,580. The fair value of the promissory note was calculated to be equal to the present value of the future debt payments discounted at a market rate of return commensurate with similar debt instruments with comparable levels of risk and marketability. A rate of interest of 8% was determined to be the appropriate rate following an assessment of the risk inherent in the debt issued and the market rate for debt of this nature using corporate credit ratings criteria adjusted for the lack of public markets for this Note. The difference between face amount of the promissory note and its fair value is being amortized over the life of the note (\$52 through June 30, 2011), and is being charged to interest expense. As of June 30, 2011, the promissory note has a balance of \$2,632.

Note Payable—Bank

At June 30, 2011, the Company has a \$197 note payable to a bank. The note dated January 10, 2011 had an original principal amount of \$489 and an annual interest rate of 3.50%. Under the terms of the note the company is required to make ten monthly payments of \$50 commencing January 30, 2011. The proceeds from the note were used to pay annual premiums for certain insurance policies carried by the Company. The holder of the note has a security interest in the insurance policies it financed and has the right upon default to cancel these policies and receive any unearned premiums.

CVS Credit facilities

At June 30, 2011, CVS had established demand credit facilities with five Italian banks. Under the facilities, CVS can borrow up to 105 Euro (\$151) on an unsecured basis and up to an additional €2,300 (\$3,309) as advances against orders, invoices and letters of credit. The maximum amount outstanding is limited to 80% of the assigned accounts receivable if there is an invoice issued or 50% if there is an order/contract issued. The banks will evaluate each request to borrow individually and determine the allowable advance percentage and interest rate. In making its determination the bank considers the customer's credit and location of the customer. Additionally, the banks have agreed to provide guarantees (performance bonds) to customers up to €386 (\$549).

At June 30, 2011, the banks had advanced CVS €1,310 Euros (\$1,885), at an interest rate from 2.45% to 3.19%. Additionally, the banks have issued guarantees of €270 (\$389). Manitex International, Inc. has guaranteed all of CVS's borrowings.

Capital leases

The Company has a twelve year lease, which expires in April 2018, that provides for monthly lease payments of \$70 for its Georgetown, Texas facility. The lease has been classified as a capital lease. At June 30, 2011, the outstanding capital lease obligation is \$3,686.

The Company has a five year lease which expires in July 10, 2014 that provides for monthly lease payments of \$25 for its Winona, Minnesota facility. The Company has an option to purchase the facility for \$500 by giving notice to the landlord of its intent to purchase the Facility. The Landlord must receive such notice at least three months prior to end of the Lease term. At June 30, 2011, the Company has outstanding capital lease obligation of \$1,241.

The Company has two additional capital leases. As of June 30, 2011, the capitalized lease obligation related to these two additional leases was \$38.

13. Legal Proceedings

The Company is involved in various legal proceedings, including product liability, employment related issues, and workers' compensation matters which have arisen in the normal course of operations. The Company has product liability insurance with self insurance retention that range from \$50 to \$1,000. Certain cases are at a preliminary stage, and it is not possible to estimate the amount or timing of any cost to the Company. However, the Company does not believe that these contingencies, in the aggregate, will have a material adverse effect on the Company. When it is probable that a loss has been incurred and possible to make a reasonable estimate of the Company's liability with respect to such matters, a provision is recorded for the amount of such estimate or the minimum amount of a range of estimates when it is not possible to estimate the amount within the range that is most likely to occur.

One of our insurance carriers has denied coverage for two product liability claims. The Company believes the insurance companies' basis for denial of coverage is improper. As such, the Company has engaged outside legal representation to challenge the insurance companies' denial of coverage. Currently, the Company is engaged in a declaratory judgment action which contests the denial of coverage. This suit was filed by Colony National Insurance Company against Manitex LLC, Manitex Inc., Manitex Skycrane, LLC, Quantum Equipment, LLC f/k/a Quantum Heavy Equipment, LLC, Quantum Value Management, LLC, Quantum Value Partners, LP and JLG Industries, Inc. It was filed October 2, 2009 in the United States District Court for the Western District of Texas, Austin Division, case number A09CA724. The Lexington Insurance Company that provides excess coverage over the Colony policy filed a motion to intervene in this action December 8, 2009. That motion has been granted. Colony and Lexington seek a ruling by the court that the defense of JLG in the underlying product liability litigation is not covered by their policies.

In its complaint, Colony and Lexington have asserted several grounds for its denial of coverage and the Company has answered the Colony complaint and filed a counterclaim against Colony alleging its right to coverage and seeking its costs for JLG Industries' defense and related costs. The Company believes that it has a meritorious position on coverage under both policies.

On November 16, 2010 the Court granted the Company's motion for Summary Judgment finding that Colony did have a duty to defend the two product liability claims. Colony and Lexington have been granted leave to appeal the decision to the Fifth Circuit Court of Appeals. The Company believes that the Fifth Circuit Court of Appeals will affirm the District Court's decision and that the Company will prevail on the coverage issue under both policies.

On May 5, 2011, the Company entered into two (2) separate Settlement Agreements with the two (2) Plaintiffs in the underlying product liability lawsuits. Pursuant to these agreements, if the Court's decision in the Declaratory Judgment action is affirmed, which the Company believes it will be, the Plaintiffs will have the opportunity to pursue their recovery solely and exclusively against either or both of the liability insurance carriers, and the Company itself shall have no liability to the Plaintiffs. If, after all appeals in the Declaratory Judgment action, it is determined that there was no duty on the part of the liability insurance carriers to defend the Company, which the Company believes is unlikely, the Company will be liable to the Plaintiffs in the total amount of \$1.9 million, payable in equal annual installments over a period of twenty (20) years without interest, beginning at the conclusion of the Declaratory Judgment action.

It is reasonably possible that the "Estimated Reserve for Product Liability Claims" may change within the next 12 months. A change in estimate could occur if a case is settled for more or less than anticipated, or if additional information becomes known to the Company.

14. Business Segments

The Company operates in two business segments: Lifting Equipment and Equipment Distribution.

The Lifting Equipment segment is a leading provider of engineered lifting solutions. The Company designs, manufactures and distributes, predominately through a network of dealers, a diverse group of products that serve different functions and are used in a variety of industries. The Company markets a comprehensive line of boom trucks and sign cranes, a complete line of rough terrain forklifts, including both the Liftking and Noble product lines, as well as special mission oriented vehicles, and other specialized carriers, heavy material handling transporters and steel mill equipment. The Company also manufactures a number of specialized rough terrain cranes and material handling products, including a 30-ton model, the first in new line of specialized high quality rough terrain cranes that we will be introducing. The Company lifting products are used in industrial applications, energy exploration and infrastructure development in the commercial sector and for military applications. The company's specialized rough terrain cranes primarily serve the needs of the construction, municipality, and railroad industries. Additionally, as of January 1, 2010, the Company began to manufacture and distribute custom trailers and hauling systems typically used for transporting heavy equipment, Our trailer business serves niche markets in the commercial construction, railroad, military, and equipment rental industries through a dealer network.

During the third quarter 2010, CVS Ferrari, srl, our Italian subsidiary located near Milan, commenced operations. CVS Ferrari, srl uses certain assets in its operations that it rents from CVS SpA under an exclusive rental agreement while CVS SpA proceeds through the Italian bankruptcy process (concordato preventivo). CVS Ferrari, srl which manufactures reach stackers and associated lifting equipment for the global container handling market further extends the products offered by our Lifting Equipment segment.

The Equipment Distribution segment located in Bridgeview, Illinois is a distributor of Terex rough terrain and truck cranes, Fuchs material handlers and Manitex boom trucks and sky cranes. The Equipment Distribution segment predominately sells its products to end users, including the rental market. Its products are used primarily for infrastructure development and commercial constructions, applications include road and bridge construction, general contracting, roofing, scrap handling and sign construction and maintenance. The Equipment Distribution segment supplies repair parts for a wide variety of medium to heavy duty construction equipment and sells both domestically and internationally. The segment also provides repair services in the Chicago area. In the second quarter of 2010, we expanded our Equipment Distribution segment by creating a new division, North American Equipment Exchange, (“NAEE”) to market previously-owned construction and heavy equipment, domestically and internationally. This Division provides a wide range of used lifting and construction equipment of various ages and condition, and the Company has the capability to refurbish the equipment to the customers’ specification.

The following is financial information for our two operating segments, i.e., Lifting Equipment and Equipment Distribution.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net revenues				
Lifting Equipment	\$33,313	\$18,442	\$62,917	\$39,574
Equipment Distribution	3,753	1,060	5,871	1,898
Total	\$37,066	\$19,502	\$68,788	\$41,472
Operating income from continuing operations				
Lifting Equipment	\$ 3,096	\$ 1,680	\$ 5,553	\$ 3,577
Equipment Distribution	116	(159)	(22)	(269)
Corporate expenses	(971)	(572)	(2,038)	(1,316)
Total operating income from continuing operations	\$ 2,241	\$ 949	\$ 3,493	\$ 1,992

The Lifting Equipment segment operating earnings includes amortization of \$473 and \$472 for the three months and \$945 and \$943 for the six months ended June 30, 2011 and 2010, respectively. The Equipment Distribution segment operating earnings includes amortization of \$36 and \$36 for the three months and \$73 and \$73 the six months ended June 30, 2011 and 2010, respectively

	June 30, 2011	December 31, 2010
Total Assets		
Lifting Equipment	\$108,432	\$ 99,702
Equipment Distribution	6,256	5,595
Corporate	96	220
Total	\$114,784	\$ 105,517

15. Transactions between the Company and Related Parties

In the course of conducting its business, the Company has entered into certain related party transactions.

The Company, through its Manitex and Manitex Liftking subsidiaries, purchases and sells parts to GT Distribution, LLC. (“GT”) including its subsidiaries, BGI USA, Inc. (“BGI”) and SL Industries, Ltd (“SL”). BGI is a distributor of assembly parts used to manufacture various lifting equipment. SL Industries, Ltd is a Bulgarian subsidiary of GT that manufactures fabricated and welded components used to manufacture various lifting equipment. GT is owned by a Senior Vice President of Manitex International, Inc.

The Company through its Manitex Liftking subsidiary provides parts and services to LiftMaster, Ltd (“LiftMaster”) or purchases parts or services from LiftMaster. LiftMaster is a rental company that rents and services rough terrain forklifts. LiftMaster is owned by the Vice President of a wholly owned subsidiary of the Company, Manitex Liftking, ULC, and a relative.

As of June 30, 2011 the Company had an accounts receivable of \$ 46 and \$55 from GT and LiftMaster and accounts payable of 557 and \$75 to GT and LiftMaster, respectively. As of December 31, 2010, the Company had net payables of \$473 and \$8 to GT and Liftmaster, respectively.

The following is a summary of the amounts attributable to certain related party transactions as described in the footnotes to the table, for the periods indicated:

		Three months ended June 30, 2011	Three months ended June 30, 2010	Six months ended June 30, 2011	Six months ended June 30, 2010
Rent paid -	Bridgeview Facility 1	\$ 60	\$ 20	120	20
Sales to:					
	SL Industries, Ltd.	\$ 143	\$ —	\$ 143	\$ —
	LiftMaster	3	3	4	43
Total Sales		<u>\$ 146</u>	<u>\$ 3</u>	<u>\$ 147</u>	<u>\$ 43</u>
Purchases from:					
	BGI USA, Inc.	\$ 24	\$ 39	\$ 73	\$ 70
	SL Industries, Ltd.	583	331	1,744	914
	LiftMaster	15	12	16	22
Total Purchases		<u>\$ 622</u>	<u>\$ 382</u>	<u>\$ 1,833</u>	<u>\$ 1,006</u>

- The Company leases its 40,000 sq. ft. Bridgeview facility from an entity controlled by Mr. David Langevin, the Company's Chairman and CEO. Pursuant to the terms of the lease, the Company makes monthly lease payments of \$20. The Company is also responsible for all the associated operations expenses, including insurance, property taxes, and repairs. The lease will expire on June 30, 2016 and has a provision for six one-year extension periods. The lease contains a rental escalation clause under which annual rent is increased during the initial lease term by the lesser of the increase in the Consumer Price Increase or 2.0%. Rent for any extension period shall however, be the then-market rate for similar industrial buildings within the market area. The Company has the option, to purchase the building by giving the Landlord written notice at any time prior to the date that is 180 days prior to the expiration of the lease or any extension period. The Landlord can require the Company to purchase the building if a change of Control Event, as defined in the agreement occurs by giving written notice to the Company at any time prior to the date that is 180 days prior to the expiration of the lease or any extension period. The purchase price regardless whether the purchase is initiated by the Company or the landlord will be the Fair Market Value as of the closing date of said sale.

16. Income Taxes

The Company's provision for income taxes consists of U.S. and foreign taxes in amounts necessary to align the Company's year-to-date tax provision with the effective rate that the Company expects to achieve for the full year. Each quarter the Company updates its estimate of the annual effective tax rate and records cumulative adjustments as necessary. The annual effective tax rates are estimated to be approximately 35.7% and 33.2% for 2011 and 2010, respectively. The effective tax rate is based upon the Company's anticipated earnings both in the U.S. and in foreign jurisdictions.

For the three months ended June 30, 2011, the Company recorded an income tax expense of \$582 which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes. For the three months ended June 30, 2010, the Company recorded an income tax expense of \$100 which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes.

For the six months ended June 30, 2011, the Company recorded an income tax expense of \$816 which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes. For the six months ended June 30, 2010, the Company recorded an income tax expense of \$258 which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes.

The Company's total unrecognized tax benefits as of June 30, 2011 and 2010 were approximately \$136 and \$170, which, if recognized, would affect the Company's effective tax rate. As of June 30, 2011 the Company had accrued immaterial amounts for the potential payment of interest and penalties.

Currently, the Company federal income tax returns for the years 2008 and 2009 are under examination by Internal Revenue Service.

17. Restructuring

For the three and six months ended June 30, 2011, the Company had restructuring expenses of \$24 and \$30, respectively. For the three and six months ended June 30, 2010, the Company had restructuring expenses of \$82 and \$135, respectively. During the second quarter 2010, the Company incurred costs of \$51 to relocate its Bridgeview, Illinois facility to a smaller more economical facility. Except for the aforementioned relocation all other restructuring expenses are for severance payment made in connection with staff reductions.

18. CVS Operating Agreement

Manitex International, Inc. announced on June 30, 2010, that its newly formed Italian subsidiary, CVS Ferrari, srl, had entered into an agreement which allows CVS Ferrari srl to use certain assets of CVS SpA on an exclusive rental basis, during the Italian bankruptcy process (concordato preventivo). CVS SpA was located near Milan, Italy and designed and manufactured a range of reach stackers and associated lifting equipment for the global container handling market, which were sold through a broad dealer network.

During July 2010 the Italian court administrator of CVS SpA approved the Company's agreement to use certain assets of CVS SpA. This agreement is on a monthly rental fee basis and is for a duration of up to two years as the Italian insolvency process, "concordato preventivo" proceeds. Under this process, the creditors of CVS SpA and the court administrator will determine the resolution of the insolvency of CVS SpA. The administrator can elect to sell the assets of CVS SpA either in whole or piecemeal. Under the agreement, CVS Ferrari srl assumed no prior liabilities of the CVS SpA business, and can use the rented CVS SpA assets for its own benefit but must return the assets at the expiration of the agreement. As part of its agreement the Company also agreed to enter into a standby letter of credit for one million euros to guarantee its commitments under the agreement. Also included, and subject to the agreement of the creditors, and the court process, was an offer to purchase the rental assets.

On September 24, 2010, Comerica Bank issued a €1,000 standby letter in fulfillment of CVS's obligations under the rental agreement. The standby letter of credit expires on July 31, 2012. Although Comerica has a security interest in substantially all the assets of the Company to support the standby letter of credit issued by Comerica, the issuance of the standby letter of credit does not impact the Company's availability under its revolving credit facilities that it has with Comerica.

On June 29, 2011, the Company entered into an agreement with CVS SpA in Liquidation to purchase the assets on July 1, 2011 that are currently being rented. The operating agreement is terminated on July 1, 2011, when the rented assets are transferred to CVS Ferrari srl. See Note 19 for further details.

19. CVS SpA in Liquidation Assets Purchase Agreement

In connection with the purchase of assets of CVS SpA in Liquidation, the Company entered into a series of agreements that include (1) A Purchase Agreement with CVS SpA in Liquidation, (2) an agreement with Cabletronic srl ("Cabletronic") to secure the software and electronic know-how currently used to manufacture and operate the products being acquired and (3) an agreement with Fratelli Ferrari Immobiliare Srl to rent and to possibly acquire the building in which CVS Ferrari srl operates. In addition, the Company assumed the liability to pay a €500 (approximately \$700) fee to two financial advisors that advised CVS SpA and the former owners that was conditioned upon the successful closing of the transaction between CVS SpA in Liquidation and CVS Ferrari srl.

Purchase Agreements

On June 29, 2011, CVS Ferrari srl (the "Purchaser"), an Italian Corporation and a wholly owned subsidiary of Manitex International, Inc. (the "Company"), entered into a purchase agreement (the "Purchase Agreement") with CVS SpA in Liquidation (the "Seller") to acquire on July 1, 2011 for €2,817 (approximately \$4,000) (1) rights, designs and drawings for all products previously manufactured by CVS SpA including reach stackers, straight mast container handlers, straddle carriers and tractors and (2) certain machinery and equipment used to manufacture the aforementioned items. The agreement allocates €1,600 (approximately \$2,000) to the intangible assets acquired and €1,216 (approximately \$1,800) to the machinery and equipment acquired. The purchase price is payable as follows: €467 upon signing the agreement, €17 within 90 days of July 1, 2011, and the remaining balance in five semi-annual installments of €467 payable on each December 30 and June 30 through December 30, 2013. No interest is accrued or payable on the deferred portion of the purchase price.

The obligation under the purchase agreement is secured by an existing guarantee of €1,000 (approximately \$1,400) issued by Unicredit SPA which expires on June 30, 2012. The Unicredit SPA guarantee is supported by a standby letter of credit issued by Comerica Bank which also expires on June 30, 2012. The purchase agreement requires the Company to replace the existing guarantee when it expires with a new guarantee issued by Unicredit SPA in an amount equal to the outstanding balance.

Related agreements

Cabletronic Agreement

On June 29, 2011, The Company and Cabletronic srl entered into a separate agreement. Under the agreement, the Company agreed to pay Cabletronics €100 (approximately \$150) in exchange for the software or electronic know-how (including source code) and all rights to said software and electronic know-how currently used to manufacture and operate the products acquired from CVS SpA. Additionally, Cabletronic also agreed to supply only to CVS Ferrari srl the hardware on which to run the software for a three year period ending June 30, 2014. The €100 is payable as follows: €34 upon signing of the contract, €33 on October 30, 2011 and €33 on January 12, 2012.

Conditional Future Purchase Commitment

On June 29, 2011, upon the signing of the Purchase Agreement a conditional commitment became effective to purchase the building in which CVS Ferrari srl operates. Under the agreement, CVS Ferrari srl has a commitment to purchase the building at the conclusion of a rental period that ends on June 30, 2014 for €9,200. The commitment to purchase the building is contingent on CVS Ferrari srl being able to secure a mortgage on market terms for 75% of the purchase price. During the rental period, CVS Ferrari srl rent will remain fixed at €360 per year.

Assumed Liabilities

The Company assumed the liability to pay a €500 (approximately \$700) fee that was conditioned upon the successful closing of the transaction between CVS SpA in Liquidation and CVS Ferrari srl to two financial advisors that advised CVS SpA and the former owners.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements and are intended to be "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements relate to, among other things, the Company's expectations, beliefs, intentions, future strategies, future events or future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include, without limitation: (1) projections of revenue, earnings, capital structure and other financial items, (2) statements of our plans and objectives, (3) statements regarding the capabilities and capacities of our business operations, (4) statements of expected future economic conditions and the effect on us and on our customers, (5) expected benefits of our cost reduction measures, and (6) assumptions underlying statements regarding us or our business. In some cases, you can identify forward-looking statements by terminology such as "may," "should," "could," "expects," "plans," "intends," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of such terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. These statements are only predictions. Our actual results may differ materially from information contained in these forward looking-statements for many reasons, including, without limitation, those described below and in our 2010 Annual Report on Form 10-K for the fiscal year ended December 31, 2010, in the section entitled "Item 1A. Risk Factors,"

- (1) Substantial deterioration in economic conditions, especially in the United States and Europe;
- (2) our customers' diminished liquidity and credit availability;
- (3) difficulties in implementing new systems, integrating acquired businesses, managing anticipated growth, and responding to technological change;
- (4) our ability to negotiate extensions of our credit agreements and to obtain additional debt or equity financing when needed;
- (5) the cyclical nature of the markets we operate in;
- (6) increases in interest rates;
- (7) government spending, fluctuations in the construction industry, and capital expenditures in the oil and gas industry;
- (8) the performance of our competitors;
- (9) shortages in supplies and raw materials or the increase in costs of materials;
- (10) our level of indebtedness and our ability to meet financial covenants required by our debt agreements;
- (11) product liability claims, intellectual property claims, and other liabilities;
- (12) the volatility of our stock price;
- (13) future sales of our common stock;
- (14) the willingness of our stockholders and directors to approve mergers, acquisitions, and other business transactions;

- (15) currency transactions (foreign exchange) risks and the risks related to forward currency contracts;
- (16) certain provisions of the Michigan Business Corporation Act and the Company's Articles of Incorporation, as amended, Amended and Restated Bylaws, and the Company's Preferred Stock Purchase Rights may discourage or prevent a change in control of the Company; and
- (17) a substantial portion of our revenues are attributed to limited number of customers which may decrease or cease purchasing any time.

The risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or operating results. If any of these risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. We do not undertake, and expressly disclaim, any obligation to update this forward-looking information, except as required under applicable law. The following discussion should be read in conjunction with the accompanying Consolidated Financial Statements and Notes thereto of the Company appearing elsewhere within this Form 10-Q.

OVERVIEW

The Company is a leading provider of engineered lifting solutions. The Company operates in two business segments the Lifting Equipment segment and the Equipment Distribution segment.

Lifting Equipment Segment

The Company is a leading provider of engineered lifting solutions. The Company designs, manufactures and distributes a diverse group of products that serve different functions and are used in a variety of industries. Through its Manitex, Inc. subsidiary it markets a comprehensive line of boom trucks and sign cranes. Manitex's boom trucks and crane products are primarily used for industrial projects, energy exploration and infrastructure development, including, roads, bridges and commercial construction. Its Badger Equipment Company ("Badger") subsidiary, acquired on July 10, 2009, is a manufacturer of specialized rough terrain cranes and material handling products, including a 30-ton model introduced in October 2009, the first in a new line of specialized high quality rough terrain cranes. Badger primarily serves the needs of the construction, municipality, and railroad industries.

Through its Manitex Liftking ULC ("Manitex Liftking" or "Liftking") subsidiary, the Company also sells a complete line of rough terrain forklifts, a line of stand-up electric forklifts, cushioned tired forklifts with lifting capacities from 18 thousand to 40 thousand pounds, and special mission oriented vehicles, as well as other specialized carriers, heavy material handling transporters and steel mill equipment. Manitex Liftking's rough terrain forklifts are used in both commercial and military applications. Specialty mission oriented vehicles and specialized carriers are designed and built to meet the Company's unique customer needs and requirements. The Company's specialized lifting equipment has met the particular needs of customers in various industries that include utility, ship building and steel mill industries.

Our subsidiary, Manitex Load King, Inc. ("Load King") located in Elk Point, South Dakota manufactures specialized custom trailers and hauling systems typically used for transporting heavy equipment. Load King Trailers serve niche markets in the commercial construction, railroad, military, and equipment rental industries through a dealer network. Load King complements our existing material handling business.

On July 1, 2010, the Company's newly formed Italian subsidiary, CVS Ferrari, srl, entered into an agreement to rent certain assets of CVS SpA, on an exclusive rental basis, while CVS SpA proceeds through the Italian bankruptcy process (concordato preventivo). CVS SpA was located near Milan, Italy and designed and manufactured a range of reach stackers and associated lifting equipment for the global container handling market, which were sold through a broad dealer network. During the third quarter 2010, CVS Ferrari, srl commenced operations and employed the rental assets in its operations. On July 1, 2011, the Company purchased the assets which were previously being rented.

Distribution Equipment Segment

The Company operates a crane dealership located in Bridgeview, Illinois that distributes Terex rough terrain and truck cranes, Fuchs material handlers, and Manitex boom trucks and sky cranes. We treat these operations as a separate reporting segment entitled "Equipment Distribution." Our Equipment Distribution segment also supplies repair parts for a wide variety of medium to heavy duty construction equipment sold both domestically and internationally. Our crane products are used primarily for infrastructure development and commercial construction; applications include road and bridge construction, general contracting, roofing, scrap handling and sign construction and maintenance.

In the second quarter of 2010, we expanded our Equipment Distribution segment by creating a new division, North American Equipment Exchange, ("NAEE") to market previously-owned construction and heavy equipment, domestically and internationally. This division provides a wide range of used lifting and construction equipment of various ages and condition, and the Company has the capability to refurbish the equipment to the customers' specification.

Customer and Suppliers Concentrations

At June 30, 2011, no customer accounted for 10% or more of the Company's total accounts receivable. As of December 31, 2010 one customer accounted for 13% of total Company accounts receivables.

For the three months ended June 30, 2011, no customers accounted for 10.0% or more of the Company's net revenues. For the three months ended June 30, 2010, two customers accounted for 14.8% and 12.2% the Company's net revenues. For the six months ended June 30, 2011, no customers accounted for 10.0% or more of the Company's net revenues. For the six months ended June 30, 2010 one customer accounted for 22.6% of the Company's net revenue. For the three and six months ended June 30, 2011 and 2010, no supplier accounted for 10% or more of total Company purchases.

Recent Economic Conditions

Beginning in September of 2008, the United States and world financial markets came under unprecedented stress. The immediate impact was a dramatic decrease in liquidity and credit availability throughout the world. An incredibly rapid and significant deterioration in economic conditions, especially in the United States and Europe followed. These events had an immediate significant adverse impact on the Company, including a very dramatic curtailment of new orders, requests to delay deliveries and, in some cases to cancel existing orders. Currently, the market for our products has stabilized but generally remains significantly below pre-2008 levels. The demand for our military products, although typically cyclical has recently been strong. Additionally, we have recently seen certain sectors of the economy appearing to show signs of improving, particularly the energy, and power distribution sectors domestically and in certain international markets.

In response to the impact of economic conditions and longer sales cycles, it was determined that swift management action was necessary to ensure that operating activity was balanced with current demand levels. The actions taken to align our cost structure to current demand levels included significant headcount reductions, reduction of overtime, as well as certain other additional cost containment measures. These actions, although difficult, were required to enable the Company to adjust to current conditions and position it to respond quickly when the market recovers.

Our total backlog has increased steadily during the past 12 months. In response, we have taken actions to selectively increase production capacity, including hiring additional manufacturing employees at certain of our facilities.

Factors Affecting Revenues and Gross Profit

The Company derives most of its revenue from purchase orders from dealers and distributors. The demand for the Company's products depends upon the general economic conditions of the markets in which the Company competes. The Company's sales depend in part upon its customers' replacement or repair cycles. Adverse economic conditions, including a decrease in commodity prices, may cause customers to forego or postpone new purchases in favor of repairing existing machinery. Additionally, our Manitex Liftking subsidiary revenues are impacted by the timing of orders received for military forklifts and residential housing starts.

Gross profit varies from period to period. Factors that affect gross profit include product mix, production levels and cost of raw materials. Margins tend to increase when production is skewed towards larger capacity cranes, special mission oriented vehicles, specialized carriers and heavy material transporters.

Three Months Ended June 30, 2011 Compared to Three Months Ended June 30, 2010

Net income for the three month periods ended June 30, 2011 and 2010

For the three months ended June 30, 2011 and 2010 the Company had a net income of \$1.0 million and \$0.2 million, respectively.

For the three months ended June 30, 2011, the net income of \$1.0 million consisted of revenue of \$37.1 million, cost of sales of \$29.6 million, research and development costs of \$0.4 million, SG&A expenses of \$4.9 million, interest expense of \$0.7 million and income tax expense of \$0.6 million.

For the three months ended June 30, 2010, the net income of \$0.2 million consisted of revenue of \$19.5 million, cost of sales of \$14.9 million, research and development costs of \$0.3 million, SG&A of \$3.3 million, restructuring expenses of \$0.1 million, interest expense of \$0.6 million, and income tax expense of \$0.1 million.

Net Revenues and Gross Profit – For the three months ended June 30, 2011, net revenues and gross profit were \$37.1 million and \$7.5 million, respectively. Gross profit as a percent of revenues was 20.2% for the three months ended June 30, 2011. For the three months ended June 30, 2010, net revenues and gross profit were \$19.5 million and \$4.6 million, respectively. Gross profit as a percent of revenues was 23.6% for the three months ended June 30, 2010.

Net revenues increased \$17.6 million to \$37.1 million for the three months ended June 30, 2011 from \$19.5 million for the comparable period in 2010. Without the increase in the revenues from the sale of used construction equipment by our North American Equipment

Exchange division (“NAEE”) and revenues from CVS Ferrari srl (“CVS”) our revenues would have increased by \$7.5 million, as NAEE and CVS combined had an increase in revenues of \$10.1 million for the three months ended June 30, 2011. NAEE, which started operating in June 2010, had revenues of less than \$0.2 million for the three months ended June 30, 2010. CVS did not commence operations until the third quarter of 2010 and, therefore, had no revenues for the three months ended June 30, 2010. The remaining increase is attributed to an increase in boom truck revenues. Boom truck revenues for the three months ended June 30, 2011 were up more than 80% as compared to revenues for the three months period ended June 30, 2010. Although boom truck sales are up substantially, they are still depressed compared to pre-2008 levels. Decreases in revenues from the sale of military and government equipment and the sale of Badger rough terrain cranes were offset by an increase in Load King trailer sales. Although military and governmental sales are lower for 2011 as compared to 2010, they are still making a significant contribution to 2011 revenues. Military and governmental sales have historically been cyclical.

Our gross profit as a percentage of net revenues decreased 3.4% to 20.2% for the three months ended June 30, 2011 from 23.6% for the three months ended June 30, 2010. An improvement in the gross margin percent for crane products was more than offset by a decrease in the margin percent for our other products. The improvement in the gross profit percent for crane products is attributed to a change in product mix towards high capacity cranes which have a higher gross profit margin and an increase in volume. The decrease in the gross profit percent for other products is principally attributed to a decrease in higher margin military and governmental business, the sales of used equipment which has a margin roughly half of that of our new product sales and inefficiencies at our trailer manufacturing facility. Increases in commodity prices, principally steel, is not a principal cause of the decrease in the gross margin percent. Nevertheless, the increase in commodity prices, however, did have a modest negative impact on our gross profit percent.

Selling, general and administrative expense – Selling, general and administrative expense for the three months ended June 30, 2011 was \$4.9 million compared to \$3.3 million for the comparable period in 2010, an increase of \$1.6 million. Selling, general and administrative expenses for the three months ended June 30, 2011 includes approximately \$0.9 million related to CVS and NAEE operations. Excluding the effect from CVS and NAEE, selling, general and administrative expense increased \$0.6 million from the prior year. Approximately half of the increase is attributable to an increase selling expense, which is in part the result of increased revenues and also increases in advertising and trade show expenses. The balance is due to several other factors including an increase in employee related costs, the result of a partial restoration of prior salary reductions and limited increases in staff.

Operating income – For the three months ended June 30, 2011 and 2010, the Company had operating income of \$2.2 million and \$0.9 million, respectively. The increase in operating income is due to an increase in gross profit of \$2.9 million offset by \$1.6 million increase in operating expenses. An increase in revenues accounts for the increase in gross profit as the gross profit percent decreased 3.4% between the second quarter 2010 and 2011. The increase in operating expenses is principally related to an increase in selling, general and administrative cost, which is explained above.

Interest expense – Interest expense was \$0.7 million and \$0.6 million for the three months ended June 30, 2011 and 2010, respectively.

Foreign currency transaction gains – The Company attempts to purchase forward currency exchange contracts such that the exchange gains and losses on the assets and liabilities denominated in other than the reporting units’ functional currency will be offset by the changes in the market value of the forward currency exchange contracts it holds.

For the three months ended June 30, 2011, the Company had a foreign currency transaction gain of \$0.03 million. For the three months ended June 30, 2010, the Company had a foreign currency loss of \$0.03 million.

Income tax – For the three months ended June 30, 2011, the Company recorded an income tax expense of \$0.6 million which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes. For the three months ended June 30, 2010, the Company recorded an income tax expense of \$0.1 million which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes. The effective taxes rates are 36.1% and 31.9% for the three months ended June 30, 2011 and 2010, respectively.

Net income – Net income for the three months ended June 30, 2011 was \$1.0 million. This compares with a net income for the three months ended June 30, 2010 of \$0.2 million. The change in net income is explained above.

Six Months Ended June 30, 2011 Compared to Six Months Ended June 30, 2010

Net income for the six month periods ended June 30, 2011 and 2010

For the six months ended June 30, 2011 and 2010 the Company had a net income of \$1.5 million and \$0.5 million, respectively.

For the six months ended June 30, 2011, the net income of \$1.5 million consisted of revenue of \$68.8 million, cost of sales of \$54.9 million, research and development costs of \$0.7 million, SG&A expenses of \$9.7 million, interest expense of \$1.3 million and income tax expense of \$0.8 million.

For the six months ended June 30, 2010, the net income of \$0.5 million consisted of revenue of \$41.5 million, cost of sales of \$31.7 million, research and development costs of \$0.6 million, SG&A of \$7.1 million, restructuring expenses of \$0.1 million, interest expense of \$1.2 million, a foreign currency transaction loss of \$0.1 and income tax expense of \$0.3 million.

Net Revenues and Gross Profit – For the six months ended June 30, 2011, net revenues and gross profit were \$68.8 million and \$13.9 million, respectively. Gross profit as a percent of revenues was 20.3% for the six months ended June 30, 2011. For the six months ended June 30, 2010, net revenues and gross profit were \$41.5 million and \$9.8 million, respectively. Gross profit as a percent of revenues was 23.7% for the six months ended June 30, 2010.

Net revenues increased \$27.3 million to \$68.8 million for the six months ended June 30, 2011 from \$41.5 million for the comparable period in 2010. Without the increase in the revenues from the sale of used construction equipment by our North American Equipment Exchange division (“NAEE”) and revenues from CVS Ferrari srl (“CVS”) our revenues would have increased by \$9.7 million, as NAEE and CVS combined had an increase in revenues of \$17.7 million for the six months ended June 30, 2011. NAEE, which started operating in June 2010, had revenues of less than \$0.2 million for the six months ended June 30, 2010. CVS did not commence operations until the third quarter of 2010 and, therefore, had no revenues for the six months ended June 30, 2010. The remaining increase is attributed to an increase in boom truck revenues. Boom truck revenues for the six months ended June 30, 2011 were up 75% as compared to revenues for the six months period ended June 30, 2010. Although boom truck sales are up substantially, they are still depressed compared to pre-2008 levels. Decreases in revenues from the sale of military and government equipment and the sale of Badger rough terrain cranes were offset by an increase in Load King trailer sales. Although military and governmental sales are lower for 2011 as compared to 2010, they are still making a significant contribution to 2011 revenues. Military and governmental sales have historically been cyclical.

Our gross profit as a percentage of net revenues decreased 3.4% to 20.3% for the six months ended June 30, 2011 from 23.7% for the six months ended June 30, 2010. An improvement in the gross margin percent for crane products was more than offset by a decrease in the margin percent for our other products. The improvement in the gross profit percent for crane products is attributed to a change in product mix towards high capacity cranes which have a higher gross profit margin and an increase in volume. The decrease in the gross profit percent for other products is principally attributed to a decrease in higher margin military and governmental business, the sales of used equipment which has a margin roughly half of that of our new product sales and inefficiencies at our trailer manufacturing facility. Increases in commodity prices, principally steel, is not a principal cause of the decrease in the gross margin percent. Nevertheless, the increase in commodity prices, however, did have a modest negative impact on our gross profit percent.

Selling, general and administrative expense – Selling, general and administrative expense for the six months ended June 30, 2011 was \$9.7 million compared to \$7.1 million for the comparable period in 2010, an increase of \$2.6 million. Selling, general and administrative expenses for the six months ended June 30, 2011 includes approximately \$1.8 million related to CVS and NAEE operations. Excluding the effect from CVS and NAEE, selling, general and administrative expense only increased \$0.8 million from the prior year. The increase is principally due to increase to an increase selling expense, which is in part the result of increased revenues and also increases in advertising and trade show expenses. Included in 2011 is approximately \$0.5 million the Company spent to attend the 2011 Con Expo trade show. The Con Expo show, which is held every three years, was held in Las Vegas in March of this year. This show is an international gathering place for the construction industries. It is estimated that 120,000 professionals from around the world attended the show. The cost of participating in Con Expo was partially offset as 2010 included non-recurring transaction expenses (prior year audit and valuation services) approximately \$0.1 million related to the Load King acquisition. Other factors including an increase in employee related costs, the result of a partial restoration of prior salary reductions and limited increases in staff also contributed to the increase in selling, general and administrative expenses. Included in 2010 were non-recurring transaction expenses (prior year audit and valuation services) approximately \$0.1 million related to the Load King acquisition.

Operating income – For the six months ended June 30, 2011 and 2010, the Company had operating income of \$3.5 million and \$2.0 million, respectively. The increase in operating income is due to an increase in gross profit of \$4.1 million offset by \$2.6 million increase in operating expenses. An increase in revenues accounts for the increase in gross profit as the gross profit percent decreased 3.4% between six months ended June 30, 2011 and six months ended June 30, 2010. The increase in operating expenses is related to increases in selling, general and administrative expense which is explained above.

Interest expense – Interest expense was \$1.3 million and \$1.2 million for the six months ended June 30, 2011 and 2010, respectively.

Foreign currency transaction gains – The Company attempts to purchase forward currency exchange contracts such that the exchange gains and losses on the assets and liabilities denominated in other than the reporting units’ functional currency will be offset by the changes in the market value of the forward currency exchange contracts it holds.

For the six months ended June 30, 2011, the Company had a foreign currency transaction gain of \$0.05 million. For the six months ended June 30, 2010, the Company had a foreign currency loss of \$0.1 million.

Income tax – For the six months ended June 30, 2011, the Company recorded an income tax expense of \$0.8 million which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes. For the six months ended June 30, 2010, the Company recorded an income tax expense of \$0.3 million which consisted primarily of anticipated federal alternative minimum tax, current year state and local tax and foreign taxes. The effective taxes rates are 35.7% and 33.2% for the six months ended June 30, 2011 and 2010, respectively.

Net income – Net income for the six months ended June 30, 2011 was \$1.5 million. This compares with a net income for the six months ended June 30, 2010 of \$0.5 million. The change in net income is explained above

Segment information

Lifting Equipment Segment

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net revenues	\$33,313	\$18,442	\$62,917	\$39,574
Operating income	3,096	1,680	5,553	3,577
Operating margin	9.3%	9.1%	8.8%	9.0%

Net Revenues

Net revenues increased \$14.9 million to \$33.3 million for the three months ended June 30, 2011 from \$18.4 million for the comparable period in 2010. Without the increase in the revenues from CVS Ferrari srl (“CVS”) our revenues would have increased by \$7.1 million, as CVS had revenues of \$7.8 million for the three months ended June 30, 2011. CVS did not commence operations until the third quarter of 2010 and, therefore, had no revenues for the three months ended June 30, 2010. The remaining increase is attributed to an increase in boom truck revenues. Boom truck revenues for the three months ended June 30, 2011 were up more than 80% as compared to revenues for the three months period ended June 30, 2010. Although boom truck sales are up substantially, they are still depressed compared to pre-2008 levels. Decreases in revenues from the sale of military and government equipment and the sale of Badger rough terrain cranes were offset by an increase in Load King trailer sales. Although military and governmental sales are lower for 2011 as compared to 2010, they are still making a significant contribution to 2011 revenues. Military and governmental sales have historically been cyclical.

Net revenues increased \$23.3 million to \$62.9 million for the six months ended June 30, 2011 from \$39.6 million for the comparable period in 2010. Without the increase in the revenues from CVS Ferrari srl (“CVS”) our revenues would have increased by \$9.1 million, as CVS had revenues of \$14.2 million for the three months ended June 30, 2011. CVS did not commence operations until the third quarter of 2010 and, therefore, had no revenues for the three months ended June 30, 2010. The remaining increase is attributed to an increase in boom truck revenues. Boom truck revenues for the six months ended June 30, 2011 were up 75% as compared to revenues for the six months period ended June 30, 2010. Although boom truck sales are up substantially, they are still depressed compared to pre-2008 levels. Decreases in revenues from the sale of military and government equipment and the sale of Badger rough terrain cranes were offset by an increase in Load King trailer sales. Although military and governmental sales are lower for 2011 as compared to 2010, they are still making a significant contribution to 2011 revenues. Military and governmental sales have historically been cyclical.

Operating Income and Operating Margins

Operating income of \$3.1 million for the three months ended June 30, 2011 was equivalent to 9.3% of net revenues compared to an operating income of \$1.7 million for the three months ended June 30, 2010 or 9.1% of net revenues. The increase in operating income is due to an increase in gross profit of \$2.5 million offset by increased operating expense of \$1.1million. The increase in gross profit is due to the significant increase in revenues as the gross profit percent decreased 2.9% to 20.8% for the three months ended June 30, 2011 from 23.7% for the three months ended June 30, 2010. A improvement in the gross margin percent for crane products was more than offset by a decrease in the margin percent for our other products. The improvement in the gross profit percent for crane products is attributed to a change in product mix towards high capacity cranes which have a higher gross profit margin and an increase in volume. The decrease in the gross profit percent for other products is principally attributed to a decrease in higher margin military and governmental business, and inefficiencies at our trailer manufacturing facility. Approximately \$0.8 million of the increase in operating expenses relates to operating expenses at CVS, which did not commence operations until the third quarter of 2010. The remaining increase in of operating expenses of \$0.3 million is attributed to an increase selling expense, which is in part the result of increased revenues and also increases in advertising and trade show expenses and several other factors including an increase in employee related costs, the result of a partial restoration of prior salary reductions and limited increases in staff.

Operating income of \$5.6 million for the six months ended June 30, 2011 was equivalent to 8.8% of net revenues compared to an operating income of \$3.6 million for the six months ended June 30, 2010 or 9.0% of net revenues. The increase in operating income is due to an increase in gross profit of \$3.6 million offset by increased operating expense of \$1.6 million. The increase in gross profit is due to the significant increase in revenues as the gross profit percent decreased 3.0% to 20.8% for the six months ended June 30, 2011 from 23.8% for the six months ended June 30, 2010. An improvement in the gross margin percent for crane products was more than offset by a decrease in the margin percent for our other products. The improvement in the gross profit percent for crane products is attributed to a change in product mix towards high capacity cranes which have a higher gross profit margin and an increase in volume. The decrease in the gross profit percent for other products is principally attributed to a decrease in higher margin military and governmental business, and inefficiencies at our trailer manufacturing facility. The increase in operating expense is principally related to operating expenses at CVS, a subsidiary that did not commence operations until the third quarter of 2010.

Equipment Distribution Segment

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net revenues	\$3,753	\$1,060	\$5,871	\$1,898
Operating loss	116	(159)	(22)	(269)
Operating margin	(3.1%)	(15.0)%	(0.4)%	(7.5)%

Net revenues – Net revenues increased \$2.7 million to \$3.8 million for the three months ended June 30, 2011 from \$1.1 million for the comparable period in 2010. Approximately 85% of the increase is related to an increase in the sale of used construction equipment. The remaining increase is attributed to increases in parts and service revenues. Prior year used construction equipment sales were very modest as the Company did not start selling used construction equipment until June of 2010.

Net revenues increased \$4.0 million to \$5.9 million for the six months ended June 30, 2011 from \$1.9 million for the comparable period in 2010. Approximately 90% of the increase is related to an increase in the sale of used construction equipment. The remaining increase is attributed to increases in parts and service revenues. Prior year used construction equipment sales were very modest as the Company did not start selling used construction equipment until June of 2010.

Operating loss and Operating Margins – The Distribution segment had an operating income of \$0.1 million for the three months ended June 30, 2011 and an operating loss of \$(0.2) for the three months ended June 30, 2010. In 2010, the Distribution Equipment segment hired additional staff to fill either vacancies or to fill newly created positions. We felt that these additional hires were a necessary investment for the future. The increase in cost from the new hires are being offset by increased revenues in 2011 and results in an increase in operating income.

The Distribution segment had an operating loss of \$0.02 million for the six month periods ended June 30, 2011 and an operating loss of \$(0.3) million for the six months ended June 30, 2010. In 2010, the Distribution Equipment segment hired additional staff to fill either vacancies or to fill newly created positions. We felt that these additional hires were a necessary investment for the future. The increase in cost from the new hires are being offset by increased revenues in 2011 and results in an increase in operating income.

Liquidity and Capital Resources

Cash and cash equivalents were \$1.0 million at June 30, 2011 compared to \$0.7 million at December 31, 2010. In addition, the Company has both a U.S. and Canadian revolving credit facility, with maturity dates of April 1, 2015. At June 30, 2011 the Company had approximately \$2.1 million available to borrow under these credit facilities. The Company executed certain amendments to its credit agreements between June 27 and June 29, 2011. The amendments, modifies the borrowing base advance formulas for the U.S. revolving credit facility to increase the inventory cap from \$9.0 to \$14.0 million and adds \$1.5 million. The amendments to the Canadian revolving credit facility modify the borrowing base advance formula to increase the advance rate on eligible accounts receivables from 80% to 85%. Together the amendments will have the effect of increasing the amounts the Company may borrow by approximately \$2.0 million. The additional borrowing capacity is available to Company as soon as the Company submits its next monthly borrowing base calculation to its bank.

Additionally, CVS has agreements with five Italian banks under which CVS can borrow €105 (\$151) on an unsecured basis and up to an additional €2,300 (\$3,309) against specific orders, invoices and letters of credit. As of June 30, 2011, CVS had received advances of €1,310 Euros (\$1,885). The amount of future advances is dependent on open orders, invoices and letters of credits that exist at the time an advance is requested. The percent that the bank will advance is dependent on both the nature of documents against which they are advancing and the credit worthiness of the customer.

During the six months ended June 30, 2011, total debt increased by \$5.7 million to \$39.7 million at June 30, 2011 from \$34.0 million at December 31, 2010.

The following is a summary of the net increase in our indebtedness from December 31, 2010 to June 30, 2011:

Facility	Increase/ (decrease)
Revolving credit facility	\$ 2.4 million
Revolving Canadian credit facility	0.7 million
Revolving credit facility – Equipment Line	— million
Liftking acquisition note	(0.2) million
Badger acquisition note	0.1 million
Installment note	1.9 million
QVM acquisition bank debt	(0.3) million
Note payable – floor plan	(0.2) million
Capital leases	(0.4) million
Note payable – Terex	(0.2) million
Notes to finance insurance premium	0.2 million
Borrowing against orders, invoices, or letters of credit	1.7 million
	<u>\$ 5.7 million</u>

Outstanding borrowings

The following is a summary of our outstanding borrowings at June 30, 2011:

	Outstanding Balance	Interest Rate	Interest Paid	Principal Payment
Revolving credit facility	\$17.7 million	3.25%	Monthly	n.a.
Revolving Canadian credit facility	4.9 million	5.50%	Monthly	n.a.
Revolving credit facility – Equipment Line	0.5 million	3.25%	Monthly	n.a.
Installment note	1.9 million	3.50%	Quarterly	\$0.04 million monthly
Badger acquisition note	2.1 million	11.0%	Quarterly	\$0.6 million each July 10
Load King acquisition note	2.6 million	8%	Quarterly	\$0.5 million annually beginning Dec. 31, 2011
QVM acquisition bank debt	0.3 million	5.75%	Monthly	\$0.05 million monthly
Note payable – floor plan	1.4 million	6.0%	Monthly	\$0.04 million monthly
Note payable – Terex	1.3 million	6.0%	Quarterly	\$0.25 million March 1 (\$0.15 million can be paid in stock)
Notes to Finance Insurance premium	0.2 million	3.50%	Monthly	Fixed payment including interest of approximately \$0.05 million paid monthly
Capital lease – Georgetown facility	3.7 million	12%	Monthly	\$0.07 million monthly payment includes interest
Capital leases – Winona facility				\$0.025 million monthly payment

	1.2 million	6.13%	Monthly	includes interest
Borrowings against orders, invoices and letters of credit	<u>1.9 million</u>	2.45 – 3.19%	Monthly	Upon payment of invoice or letter of credit
	<u>\$39.7 million</u>			

Future availability under credit facilities

As stated above, the Company had cash of \$1.0 million and approximately \$2.1 million available to borrow under its credit facilities at June 30, 2011. Additionally the Company's next monthly borrowing base submitted to the bank will reflect approximately \$2.0 million in additional borrowing capacity that stems from the recently signed amendments to its revolving credit facility. Additionally, CVS has agreements with five Italian banks under which CVS can borrow €105 (\$151) on an unsecured basis and up to an additional €2,300 (\$3,309) against specific orders, invoices and letters of credit. As of June 30, 2011, CVS had received advances of €1,310 (\$1,885) from the banks. Any future advances against the Italian facilities are dependent on having available collateral.

The Company needs cash to fund normal working capital needs and to make scheduled debt payments as shown in the above table. Additionally, the Company will need approximately \$1.1 million of cash in July 2011 to complete its purchase of certain assets from CVS SpA in Liquidation. In June 2011, the Company borrowed the funds required to close the transaction with CVS SpA in Liquidation from a U.S. bank by executing a four year installment note for \$1.9 million. Approximately \$1.8 million was sent to our CVS Ferrari srl subsidiary to be use the purchase the asset from CVS SpA in Liquidation. On June 29, 2011, upon signing of the purchase agreement, CVS Ferrari gave the Italian court a \$0.7 million deposit, which is included in prepaid expenses. The remaining \$1.1 million required to close the transaction will be funded by CVS Ferrari srl from the balance of the cash remitted to them.

The purchase agreement with CVS SpA in Liquidation also obligates the Company to make five semi-annual installment payments of €0.5 million or \$0.7million on June 30 and December 30, beginning with December 30, 2011 and ending with December 31, 2013.

Both the U.S. and Canadian credit facilities are asset based. The maximum the Company may borrow under either facility is the lower of the credit line or the available collateral, as defined in the credit agreements. Collateral under the agreements consists of stated percentages of eligible accounts receivable and inventory. Beginning in September 2008, the financial markets in the United States and globally came under incredible stress. A substantial deterioration in economic conditions, especially in the United States and Europe followed. As a result, the Company has seen a significant contraction in its business and borrowing collateral. Recently, we have seen certain sectors of the economy showing signs of improving, particularly the energy, and power distribution sectors domestically and certain international markets. As a result, we have increased our inventories to support future sales growth. The collateral formula for the U.S. credit facility limits borrowing against inventory to 50% of eligible inventory (work in process inventory is excluded) and caps total borrowing against our inventory at \$14.0 million. In the future, the provision limiting borrowing against inventory to 50% of eligible inventory may result in additional cash constraints. However, the Company expects cash flows from operations and existing availability under the current revolving credit facilities, nevertheless, will be adequate to fund future operations. If in the future, we were to determine that additional funding is necessary, we believe that it would be available.

We will likely need to raise additional capital through debt or equity financings to support our growth strategy, which may include additional acquisitions. There is no assurance that such financing will be available or, if available, on acceptable terms.

2011

Operating activities consumed \$4.9 million of cash for the three months ended June 30, 2011 comprised of net income of \$1.5 million, non-cash items that totaled \$2.3 million and changes in assets and liabilities, which consumed \$8.7 million. The principal non-cash items are depreciation and amortization of \$1.6 million and a decrease in deferred tax assets of \$0.5 million.

Increases in accounts payable of \$1.9 million and other current liabilities of \$0.2 million which generated cash were more than offset by the following items which consumed cash: increases in accounts receivable of \$3.0 million, inventory of \$7.0 million, prepaid expenses of \$0.1 million, other assets of \$0.1 million and a decrease in accrued expense of \$0.7 million. The increase in accounts receivable, inventory and accounts payable is attributed to an increase revenues. Accrued expenses decreased as taxes and bonuses accrued at December 31, 2011 were paid. The increase in other current liabilities is due to an increase in deposits received from customers.

Investing activities for the six months ended June 30, 2011 consumed \$0.4 million of cash. Proceeds of \$0.1 million from the sale of fixed assets partially offset expenditures of \$0.3 million to purchase capital equipment and \$0.1 to acquire certain technology to be used by CVS.

Financing activities generated \$5.5 million in cash for the Six months ended June 30, 2011, which compares to the \$5.7 million net increase in outstanding debt reflected on the above table. The \$0.2 million difference is an exchange rate difference that occurs as cash flows for foreign subsidiaries are calculated in local currencies and then converted to U.S. dollars. As such, the impact (in U.S. dollars) that a strengthening Canadian dollar and Euro had on outstanding debt are reflected on the cash flow statement on the line entitled “effect of exchange rate changes on cash” rather than being included in the financing activity section.

2010

Operating activities consumed \$0.4 million of cash for the six months ended June 30, 2010 comprised of net income of \$0.5 million, non-cash items that totaled \$1.6 million and changes in assets and liabilities, which consumed \$2.6 million. The principal non-cash item is depreciation and amortization of \$1.6 million.

A decrease in inventory of \$0.6 million and increases in accounts payable of \$0.2 million, accrued expenses of \$0.7 million and other current liabilities of \$0.2 million were more than offset by an increases in accounts receivable of \$4.1 million and prepaid expenses of \$0.1 million. The increase in accrued expenses is primarily related to increases in accrued commission (the result of increased revenues), an increase in an accrued liability on forward exchange contracts (due to the strengthening of the US\$ compared to the Canadian \$) and an increase in accrual for property tax (due timing of payments). The increase in other current liabilities is the result of an increase in customer deposits received. The increase in accounts receivable is principally due to an increase in revenues.

Cash flows related to investing activities generated \$0.1 million of cash for the six months ended June 30, 2010, as the proceeds \$0.22 million from the sale of equipment were slightly more than amount spent to purchase equipment.

Financing activities generated \$1.9 million in cash for the six months ended June 30, 2010. The above table shows a net increase in outstanding debt of \$1.5 million. Included in this net increase of \$1.5 million are two non-cash debt reductions that total \$0.4 million whose impact are excluded from the cash flow statement. See notes (1) and (2) on the face of the Consolidated Statement of Cash Flows for additional details regarding the two non-cash transactions.

Contingencies

The Company is involved in various legal proceedings, including product liability and workers’ compensation matters which have arisen in the normal course of operations. Certain cases are at a preliminary stage, and it is not possible to estimate the amount or timing of any cost to the Company. However, the Company does not believe that these contingencies, in aggregate, will have a material adverse effect on the Company.

Related Party Transactions

For a description of the Company’s related party transactions, please see Note 15 to the Company’s consolidated financial statements entitled “Transactions between the Company and Related Parties.”

Critical Accounting Policies

See Item 7, Management’s Discussion and Analysis of Results of Operations and Financial Condition in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2010, for a discussion of the Company’s other critical accounting policies.

Impact of Recently Issued Accounting Standards

In October 2009, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (ASU) 2009-13, “Multiple-Deliverable Revenue Arrangements”, which amended ASC 605, “Revenue Recognition.” This guidance addresses how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting, and how to allocate the consideration to each unit of accounting. In an arrangement with multiple deliverables, the delivered item(s) shall be considered a separate unit of accounting if the delivered items have value to the customer on a stand-alone basis. Items have value on a stand-alone basis if they are sold separately by any vendor or the customer could resell the delivered items on a stand-alone basis and if the arrangement includes a general right of return relative to the delivered items, delivery or performance of the undelivered items is considered probable and substantially in the control of the vendor.

Arrangement consideration shall be allocated at the inception of the arrangement to all deliverables based on their relative selling price, except under certain circumstances such as items recorded at fair value and items not contingent upon the delivery of additional items or meeting other specified performance conditions. The selling price for each deliverable shall be determined using vendor specific objective evidence (“VSOE”) of selling price, if it exists, otherwise third-party evidence of selling price. If neither VSOE nor

third-party evidence exists for a deliverable, the vendor shall use its best estimate of the selling price for that deliverable. This guidance eliminates the use of the residual value method for determining allocation of arrangement consideration and allows the use of an entity's best estimate to determine the selling price if VSOE and third-party evidence cannot be determined. It also requires additional disclosures such as the nature of the arrangement, certain provisions within the arrangement, significant factors used to determine selling prices and the timing of revenue recognition related to the arrangement. This guidance shall be effective for fiscal years beginning on or after June 15, 2010, with early adoption permitted. The guidance has been adopted as of January 1, 2011 and did not have a material impact on the Company's consolidated financial statements.

In January 2010, the FASB issued Accounting Standards Update 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. This ASU requires some new disclosures and clarifies some existing disclosure requirements about fair value measurement as set forth in Codification Subtopic 820-10. The FASB's objective is to improve these disclosures and, thus, increase the transparency in financial reporting. Specifically, ASU2010-06 amends Codification Subtopic 820-10 to now require:

- A reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers; and,
- In the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances and settlements.

In addition, ASU2010-06 clarifies the requirements of the following existing disclosures:

- For purposes of reporting fair value measurement for each class of assets and liabilities, a reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities; and,
- A reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements.

ASU2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Early adoption is permitted. The provisions were adopted on January 1, 2010. The adoption did not have a material impact on the Company's Consolidated Financial Statements.

In March 2010, the FASB issued Accounting Standards Update 2010-11, Derivatives and Hedging (Topic 815): Scope Exception Related to Embedded Credit Derivatives. The amendments in this Update are effective for each reporting entity at the beginning of its first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at the beginning of each entity's first fiscal quarter beginning after issuance of this Update. The adoption did not have a material impact on the Company's Consolidated Financial Statements.

In April 2010, the FASB issued Accounting Standards Update 2010-13, Compensation-Stock Compensation (topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades—a consensus of the FASB Emerging Issues Task Force. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. Earlier application is permitted. The guidance has been adopted as of January 1, 2011 and did not have a material impact on the Company's consolidated financial statements.

In July 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ASU 2010-20, "Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses." ASU 2010-20 requires additional disclosures about the credit quality of financing receivables and the allowance for credit losses. The purpose of the additional disclosures is to enable users of financial statements to better understand the nature of credit risk inherent in an entity's portfolio of financing receivables and how that risk is analyzed. The new disclosures was required to be made in interim and annual periods ending on or after December 15, 2010. ASU 2011-01 temporarily delays the effective date of the disclosures to interim and annual periods ending after June 15, 2011. The adoption did not have a material impact on the Company's Consolidated Financial Statements.

In December 2010, the FASB issue ASU 2010-28, *Intangibles – Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts* ("ASU 2010-28"). ASU 2010-28 modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts and requires the company to perform Step 2 if it is more likely than not that a goodwill impairment may exist. ASU 2010-28 is effective for fiscal years and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. Under the guidance any impairment recorded upon adoption is recorded as a cumulative-effect adjustment to beginning retained earnings in the period of adoption. The guidance has been adopted as of January 1, 2011 and did not have a material impact on the Company's consolidated financial statements.

December 2010, the FASB issued ASU No. 2010-29, *Business Combinations (Topic 805) — Disclosure of Supplementary Pro Forma Information for Business Combinations* ("ASU 2010-29"). This standard update clarifies that, when presenting comparative financial statements, SEC registrants should disclose revenue and earnings of the combined entity as though the current period business

combinations had occurred as of the beginning of the comparable prior annual reporting period only. The update also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. ASU 2010-29 is effective prospectively for material (either on an individual or aggregate basis) business combinations entered into in fiscal years beginning on or after December 15, 2010 with early adoption permitted. ASU 2010-29 is therefore effective for acquisitions made after January 1, 2010. The guidance has been adopted as of January 1, 2011 and may impact our disclosures for any future business combinations, but the effect will depend on acquisitions that may be made in the future.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs)*. The amendments in this ASU generally represent clarification of Topic 820, but also include instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This update results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and International Financial Reporting Standards (“IFRS”). The amendments are effective for interim and annual periods beginning after December 15, 2011 and are to be applied prospectively. Early application is not permitted. The Company is in the process of assessing the impact, if any, that the adoption of ASU 2011-04 will have on its results of operations or its financial position.

In June 2011, the FASB issued ASU 2011-05 - Presentation of Comprehensive Income (“ASU 2011-05”), requires entities to present reclassification adjustments included in other comprehensive income on the face of the financial statements and allows entities to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. It also eliminates the option for entities to present the components of other comprehensive income as part of the statement of changes in stockholders’ equity. For public companies, ASU 2011-05 is effective for fiscal years (and interim periods within those years) beginning after December 15, 2011, with earlier adoption permitted. The Company will adopt these standards on January 1, 2012. Because ASU 2011-05 impacts presentation only, it will not have a material effect on the Company’s operating results or financial position. This update will, however, require the Company to change the presentation of its consolidated financial statement

Off-Balance Sheet Arrangements

On September 24, 2010, Comerica Bank issued a 1.0 million Euro standby letter in fulfillment of CVS’s obligations under the rental agreement. The standby letter of credit expires on July 31, 2012. Comerica has a security interest in substantially all the assets of the Company to support the standby letter of credit.

The Company has agreements with three Italian banks which have agreed to issue guarantees (performance bonds) to our customers for amounts in aggregate up 386 Euros (\$549). At March 31, 2011, the banks had issued guarantees of 270 Euros (\$389) in total.

The Company has a conditional commitment to purchase the building in which CVS Ferrari srl operates. Under the agreement, CVS Ferrari srl has a commitment to purchase the building at the conclusion of a rental period that ends on June 30, 2014 for €9,200. The commitment to purchase the building is contingent on CVS Ferrari srl being able to secure a mortgage on market terms for 75% of the purchase price.

Item 3—Quantitative and Qualitative Disclosures about Market Risk

Not applicable

Item 4—Controls and Procedures

Disclosure Controls and Procedures

The Company under the supervision and with the participation of management, including the Chief Executive Officer (principal executive officer) and the Chief Financial Officer (principal financial officer), evaluated the effectiveness of our “disclosure controls and procedures” (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) as of March 31, 2011.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) were effective as of June 30, 2011 to provide reasonable assurance that (1) information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms,

and (2) information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

The effectiveness of any system of controls and procedures is subject to certain limitations, and, as a result, there can be no assurance that our controls and procedures will detect all errors or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system will be attained.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1—Legal Proceedings

The Company is involved in various legal proceedings, including product liability and workers' compensation matters which have arisen in the normal course of operations. The Company has product liability insurance with self insurance retention that ranges from \$50 thousand to \$1 million. Certain cases are at a preliminary stage, and it is not possible to estimate the amount or timing of any cost to the Company. However, the Company does not believe that these contingencies, in the aggregate, will have a material adverse effect on the Company. When it is probable that a loss has been incurred and possible to make a reasonable estimate of the Company's liability with respect to such matters, a provision is recorded for the amount of such estimate or the minimum amount of a range of estimates when it is not possible to estimate the amount within the range that is most likely to occur.

One of our insurance carriers has denied coverage for two product liability claims. The Company believes the insurance companies' basis for denial of coverage is improper. As such, the Company has engaged outside legal representation to challenge the insurance companies' denial of coverage. Currently, the Company is engaged in a declaratory judgment action which contests the denial of coverage. This suit was filed by Colony National Insurance Company against Manitex LLC, Manitex Inc., Manitex Skycrane, LLC, Quantum Equipment, LLC f/k/a Quantum Heavy Equipment, LLC, Quantum Value Management, LLC, Quantum Value Partners, LP and JLG Industries, Inc. It was filed October 2, 2009 in the United States District Court for the Western District of Texas, Austin Division, cause number A09CA724. The Lexington Insurance Company that provides excess coverage over the Colony policy filed a motion to intervene in this action December 8, 2009. That motion has been granted. Colony and Lexington seek a ruling by the court that the defense of JLG in the underlying product liability litigation is not covered by their policies.

In its complaint, Colony and Lexington have asserted several grounds for its denial of coverage and the Company has answered the Colony complaint and filed a counterclaim against Colony alleging its right to coverage and seeking its costs for JLG Industries, Inc.'s defense and related costs.

On November 16, 2010 the Court granted the Company's motion for Summary Judgment finding that Colony did have a duty to defend the two product liability claims. Colony and Lexington have been granted leave to appeal the decision to the Fifth Circuit Court of Appeals. The Company believes that the Fifth Circuit Court of Appeals will affirm the District Court's decision and that the Company will prevail on the coverage issue under both policies.

On May 5, 2011, the Company entered into two (2) separate Settlement Agreements with the two (2) Plaintiffs in the underlying product liability lawsuits. Pursuant to these agreements, if the Court's decision in the Declaratory Judgment action is affirmed, which the Company believes it will be, the Plaintiffs will have the opportunity to pursue their recovery solely and exclusively against either or both of the liability insurance carriers, and the Company itself shall have no liability to the Plaintiffs. If, after all appeals in the Declaratory Judgment action, it is determined that there was no duty on the part of the liability insurance carriers to defend the Company, which the Company believes is unlikely, the Company will be liable to the Plaintiffs in the total amount of \$1.9 million, payable in equal annual installments over a period of twenty (20) years without interest, beginning at the conclusion of the Declaratory Judgment action.

Item 1A—Risk Factors

As of the date of this filing, there have been no material changes from the risk factors disclosed in the Company's Annual Report on Form 10-K filed for the year ended December 31, 2010.

Item 2—Unregistered Sales of Equity Securities and Use of Proceeds.

The Company's credit agreement with Comerica Bank directly restricts the Company's ability to declare or pay dividends without Comerica's consent. In addition, pursuant to the Company's credit agreement with Comerica, the Company must maintain a minimum

tangible effective net worth, as defined in the credit agreement. This tangible net worth requirement takes into account dividends paid to the Company's shareholders. Therefore, in determining whether the Company can pay dividends, or the amount of dividends that may be paid, the Company will also have to consider whether the payment of such dividends will allow the Company to maintain the tangible net worth requirement in the Company's credit agreement.

EXHIBIT INDEX

<u>Exhibit Number</u>	<u>Exhibit Description</u>
10.1	Amendment No. 7 dated June 28, 2011 to Second Amended and Restated Credit Agreement dated August 9, 2007, by and between Manitex International, Inc., Manitex, Inc., and Comerica Bank, as amended (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed July 1, 2011).
10.2	Master Revolving Note in the principal amount of \$22.5 million dated June 29, 2011 by and between, and between Manitex, Inc. and Comerica Bank (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed July 1, 2011).
10.3	Amendment effective as of June 29, 2011 to the Letter Agreement dated October 29, 2009 (incorporated by reference to Exhibit 10.3 to the Company's Current Report on Form 8-K filed July 1, 2011).
10.4	Amendment effective as of June 29, 2011 to Advance Formula Agreement dated January 26, 2009 (incorporated by reference to Exhibit 10.4 to the Company's Current Report on Form 8-K filed July 1, 2011).
10.5	Amendment No. 7 effective June 29, 2011 to the Master Revolving Note (the "Canadian Note") in the principal amount of CDN \$3.5 million dated December 29, 2006, as amended (incorporated by reference to Exhibit 10.5 to the Company's Current Report on Form 8-K filed July 1, 2011).
10.6	Master Revolving Note (the "American Note") in principal amount of \$6.5 million dated June 29, 2011, by and between Manitex Liftking, ULC and Comerica Bank (incorporated by reference to Exhibit 10.6 to the Company's Current Report on Form 8-K filed July 1, 2011).
10.7	Amendment effective as of June 29, 2011 to the Letter Agreement dated May 5, 2010 (incorporated by reference to Exhibit 10.7 to the Company's Current Report on Form 8-K filed July 1, 2011).

- 10.8 Master Revolving Note in the principal amount of \$1.0 million dated June 29, 2011 by and between, and between Manitex International, Inc. and Comerica Bank (incorporated by reference to Exhibit 10.8 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.9 Guaranty of Manitex International, Inc. dated June 29, 2011 that guarantees Manitex, Inc. indebtedness to Comerica Bank (incorporated by reference to Exhibit 10.9 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.10 Guaranty of Manitex International, Inc. dated June 29, 2011 that guarantees Manitex Liftking, ULC indebtedness to Comerica Bank (incorporated by reference to Exhibit 10.10 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.11 Guaranty of Badger Equipment Company and Manitex Load King, Inc. dated June 29, 2011 that guarantees Manitex, Inc. and Manitex International, Inc. indebtedness to Comerica Bank (incorporated by reference to Exhibit 10.11 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.12 Security Agreement dated June 29, 2011 by and between, and between Badger Equipment Company and Comerica Bank (incorporated by reference to Exhibit 10.12 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.13 Security Agreement dated June 29, 2011 by and between, and between Manitex Load King, Inc. and Comerica Bank (incorporated by reference to Exhibit 10.13 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.14 Guaranty of Manitex, Inc. dated June 29, 2011 that guarantees Manitex International, Inc. indebtedness to Comerica Bank (incorporated by reference to Exhibit 10.14 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.15 Installment Note in the principal amount of \$1.85 million dated June 27, 2011 by and between, and between Manitex International, Inc. and Comerica Bank (incorporated by reference to Exhibit 10.15 to the Company's Current Report on Form 8-K filed July 1, 2011).
- 10.16 English Summary of Form of Agreement for Sale of Company Division signed June 29, 2011 between C.V.S. Costruzione Veicoli Speciali S.p.A. and CVS Ferrari srl (incorporated by reference to Exhibit 2.1 to the Company's Current Report on Form 8-K/A filed August 8, 2011).
- 10.17 English Summary of Form of Agreement for the Provision of Goods dated June 29, 2011 between CVS Ferrari Srl and Cabletronic srl (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K/A filed August 8, 2011).
- 10.18 English Summary of Form of Letter Agreement dated February 11, 2011 between C.V.S. Costruzione Veicoli Speciali S.p.A. and CVS Ferrari srl (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K/A filed August 8, 2011).
- 31.1* Certification by Chief Executive Officer pursuant to Rule 13a-14(a) and 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2* Certification by Chief Financial Officer pursuant to Rule 13a-14(a) and 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1* Certification by Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted by Section 906 of the Sarbanes-Oxley Act of 2002.
- 101** The following financial information from Manitex International, Inc.'s Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2011, formatted in XBRL (eXtensible Business Reporting Language): (i) Statements of Income for the three months ended June 30, 2011 and 2010 and the six months ended June 30, 2011 and 2010, (ii) Balance Sheets as of June 30, 2011 and December 31, 2010, (iii) Statements of Cash Flows for the six months ended June 30, 2011 and 2010, and (iv) Notes to Unaudited Interim Financial Statements.

CERTIFICATIONS

I, David J. Langevin, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Manitex International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
